

# APPROVED 1540 COMMITTEE MATRIX

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to inter-governmental organizations. The matrices are prepared under the direction of the 1540 Committee.

The 1540 Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of Security Council Resolution 1540.

The matrices are not a tool for measuring compliance of States in their non-proliferation obligations but for facilitating the implementation of Security Council Resolutions 1540 (2004), 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012) and 2325 (2016). They do not reflect or prejudice any ongoing discussions outside of the Committee, in the Security Council or any of its organs, of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purpose only and does not constitute in any way a legal obligation arising from resolution 1540 or its successive resolutions.

Matrix entries are only indicators of fact and not indicators of the degree of compliance under resolution 1540 (2004) and its successor resolutions. Thus:

An "X" in any data field signifies only that the 1540 Committee considers that a State has taken the steps required, and/or has provided specific references to the applicable legal basis or executive behaviour as evidence of such steps. An "X" against any data field does not necessarily signify that a State has met in full its 1540 obligations for that data field.

A "?" in any data field signifies that the references to legislative or other measures may not be directly relevant or are incomplete.

A "NA" (Not Applicable) in any data field signifies that the data field is not applicable to that State where through legally binding instruments States specified that they do not possess related materials or facilities.

A blank in any data field signifies that there is insufficient information available to enter an "X" or "?" against a particular data field.

<b>State:</b>	<b>Hungary</b>
<b>Date of Report:</b>	<b>27 October 2004</b>
<b>Dates of Additional Reports:</b>	<b>29 December 2005</b>
	<b>9 February 2006</b>
	<b>21 January 2008</b>

## VIII. OP 7 and 8 (d) - Assistance, Work with and inform Industry and Public, and other Information

1	Assistance offered	Hungary is ready to share its experiences of developing and maintaining effective controls over nuclear, biological, and chemical as well as dual-use goods and technologies.
2	Assistance Point of Contact (for assistance providers only)	Ministry of Foreign Trade and Affairs, Department for Security Policy and Non-Proliferation Email: <a href="mailto:bpnf@mfa.gov.hu">bpnf@mfa.gov.hu</a>
3	Assistance requested	
4	Action taken to work with and inform industry	Trade licensing office undertakes regular visits to producers so that they understand relevant export controls. Close working relationship with industry established through government/industry committees, awareness raising seminars and workshops. The Government of Hungary provides advice and assistance to industry and academia. Relevant information is regularly disseminated through governmental websites, publications, leaflets, via outreach events and bilateral meetings.
5	Action taken to work with and inform the public	Information is regularly disseminated through government websites, publications and leaflets. This includes publishing the yearly reports on the Activities of the Licensing Authority on its website. Government encourages and supports the inclusion of non-proliferation issues in curricula.
6	Point of Contact	Department for Security Policy and Non-proliferation, Ministry of Foreign Affairs and Trade, Email: <a href="mailto:bpnf@mfa.gov.hu">bpnf@mfa.gov.hu</a>
7	Voluntary National Implementation Action Plan (NAP)	
8	1540 Committee visits to States
