2008/3
Assessment of the progress made in the implementation of and follow-up to the outcomes of the World Summit on the Information Society

The Economic and Social Council,

Recalling the outcome documents of the World Summit on the Information Society, 5

Recalling also that access to information and sharing and creation of knowledge contributes significantly to strengthening economic, social and cultural development, thus helping all countries to reach the internationally agreed development goals and objectives, including the Millennium Development Goals, considering that this process can be enhanced by removing barriers to universal, ubiquitous, equitable and affordable access to information, and underlining the importance of removing barriers to bridging the digital divide, particularly those that hinder the full achievement of the economic, social and cultural development of countries and the welfare of their people, in particular in developing countries,

Recognizing the efforts by all stakeholders to implement the outcomes of the two phases of the World Summit on the Information Society,

Recognizing also the efforts of the United Nations organizations and programmes and of all the regional commissions in implementing the goals, commitments and recommendations of the World Summit on the Information Society,

Recalling its resolution 2006/46 of 28 July 2006 on the follow-up to the World Summit on the Information Society and review of the Commission on Science and Technology for Development and the mandate that it gave to the Commission,

Recalling also General Assembly resolution 57/270 B of 23 June 2003 and Economic and Social Council resolution 2007/29 of 27 July 2007,

Taking note of the report of the Secretary-General on the progress made in the implementation of and follow-up to the outcomes of the World Summit on the Information Society at the regional and international levels, 6

Evolving challenges and opportunities

1. Notes that the digital divide is changing in some respects and that while in general the divide may be shrinking, a new form of digital divide is emerging in terms of difference in quality and speed of access to information and communications technologies;

2. Also notes the continuing relevance of assisting developing countries in their efforts to overcome the digital divide, particularly with regard to both access and capacity;

3. Further notes that the disparity continues between developed and developing countries in respect of the cost and quality of access and that in developed, high-income economies, the average cost of a broadband connection is significantly less than in developing countries, both in nominal terms and as a percentage of the average monthly income;

4. Notes that the gender divide still persists in respect of the quality and variety of means of access to the Internet and information and communications technologies in the building of the information society in both developed and developing countries;

5. Also notes the strong growth of mobile telephony subscriptions, especially in developing countries;

6. Notes with concern the growing number of incidents affecting global network safety and security and provoking service outages in large regions of the world;

7. Notes that in many countries there is inadequate coherence and complementarity between national information and communications technology policies and national development and poverty reduction strategies and that, especially in the poorer rural areas, the potential of the Internet and information and communications technologies in general for promoting development has not yet been fully utilized;

8. Calls upon all stakeholders to increase efforts towards funding of and investment in information and communications technologies in order to advance broadband access, including wireless access, in areas and countries in which it is still limited or non-existent;

9. Calls upon all States, in building the information society, to take steps with a view to avoiding and to refrain from taking any unilateral measure not in accordance with international law and the Charter of the United Nations that impedes the full achievement of economic and social development by the population of the affected countries and that hinders their well-being;

---

10. **Reaffirms** that the protection of intellectual property is important for encouraging innovation and creativity in the information society, that, similarly, the wide dissemination, diffusion and sharing of knowledge is important for encouraging innovation and creativity, and that facilitating meaningful participation by all in intellectual property issues and knowledge-sharing through full awareness and capacity-building is a fundamental function of an inclusive information society;

11. **Calls upon** all stakeholders to increase their efforts to reduce the disparity in cost of access, through, for example, the establishment of Internet exchange points and the creation of a competitive environment, at both the backbone network and local levels;

12. **Recommends** that all States strive for gender equality in access to the Internet and in building the information society in both developed and developing countries, through ensuring the inclusion of the gender approach in information and communications technology policies in national strategies;

13. **Calls upon** all stakeholders to continue the development and spread of easy-to-use applications and services for mobile phones and related devices, especially those that are useful in rural areas and work with low bandwidth and high latency;

14. **Also calls upon** all stakeholders to cooperate more closely in making global networks more stable, resilient and secure and in overcoming outages of, incidents affecting and attacks on these networks;

15. **Calls upon** international and regional organizations to assess and report on a regular basis on the universal accessibility of nations to information and communications technologies, with the aim of creating equitable opportunities for the growth of the information and communications technology sectors of developing countries;

16. **Recommends** the mainstreaming of information and communications technology policies into national development or poverty reduction strategies, in accordance with the priorities of countries;

17. **Also recommends** increased international cooperation at all levels and among all stakeholders to help rural areas access and benefit from the Internet and information and communications technologies in general;

**Successes and shortcomings to date in respect of the implementation of the outcomes of the World Summit on the Information Society**

18. **Takes note with appreciation** of the ongoing work of the Internet Governance Forum, its multi-stakeholder approach and its innovative platform and expresses its thanks to host Governments for their contributions;

19. **Acknowledges** the progress made towards developing multilingual capabilities on the Internet;

20. **Also acknowledges** the work of the Partnership on Measuring Information and Communications Technologies for Development on developing indicators for further consideration and decision by the Statistical Commission;

21. **Notes** the lack of indicators needed to measure progress towards achieving the targets as set out in section B of the Plan of Action adopted by the
World Summit on the Information Society at its first phase, held in Geneva from 10 to 12 December, and endorsed by the General Assembly;  

22. Takes note of the efforts undertaken by the regional commissions in respect of the coordination of the implementation of the outcomes of the World Summit on the Information Society, including in developing e-strategies, capacity-building and measuring of information and communications technologies;  

23. Acknowledges the efforts of all action line facilitators, especially the International Telecommunication Union and the United Nations Educational, Scientific and Cultural Organization in their role as lead facilitators;  

24. Notes that the architecture for the implementation of the outcomes of the World Summit on the Information Society, as defined in the Tunis Agenda for the Information Society, is rather complex and has also imposed limitations in respect of the participation of all stakeholders, in particular those from developing countries;  

25. Takes note of the letter from the Secretary-General of the United Nations addressed to relevant organizations responsible for essential tasks associated with the Internet in which he requested them to report on the steps they had taken towards achieving enhanced cooperation in accordance with paragraph 71 of the Tunis Agenda and looks forward to the report to be prepared by the Secretary-General, which may contain recommendations on how the process should be pursued, and notes that all stakeholders, in their respective roles, will be included in this process;  

26. Reaffirms the relevance of decisions on Internet governance in their entirety, as outlined in the Tunis Agenda;  

27. Recommends that the Internet Governance Forum, as a multi-stakeholder discussion forum, retain its focus on public policy issues related to Internet governance;  

28. Encourages collaboration among all stakeholders, including international organizations, consistent with their mandate and existing budgetary resources, in regard to the multilingualization of the Internet;  

29. **Measures to improve the quadrennial reporting procedures**

*The Economic and Social Council,*

*Recalling* its resolution 1996/31 of 25 July 1996 on the consultative relationship between the United Nations and non-governmental organizations,

*Reaffirming* its resolution 1996/31, in which it established that one of the primary purposes of the consultative arrangement is to secure expert information or advice from organizations whose special competence and/or activities in areas of
direct relevance to the aims and purposes of the United Nations qualified them to make a significant contribution to the work of the Economic and Social Council,

Mindful of the importance of an efficient and effective quadrennial reporting and review system to ensure the smooth functioning of a dynamic and productive consultative arrangement as set out in its resolution 1996/31,

Emphasizing that the quadrennial reporting exercise mandated under resolution 1996/31 constitutes the only formal monitoring mechanism established to enable the Committee on Non-Governmental Organizations to confirm the continued existence and activity of a non-governmental organization and to determine that the organization conforms at all times to the principles governing the establishment and nature of its consultative relationship,

Recalling, in particular, paragraphs 55, 57 (c) and 61 (c) of its resolution 1996/31, which set out the responsibility of non-governmental organizations in general or special consultative status to submit quadrennial reports and the basis for the suspension or withdrawal of such consultative status for those organizations that fail to make any positive or effective contribution to the work of the United Nations,

Expressing serious concern at the unsatisfactory submission of quadrennial reports,

1. Decides that the procedure for the submission of quadrennial reports for a non-governmental organization in general or special consultative status shall be as follows:

   (a) Six months prior to the due date for the report, the Non-Governmental Organizations Section of the Department of Economic and Social Affairs of the United Nations Secretariat shall write to the non-governmental organization concerned to remind it of the reporting requirement, the expected date of the submission of the report and the penalties for non-reporting, as stipulated in the present resolution in accordance with Economic and Social Council resolution 1996/31;

   (b) One month after the due date for the report, the Non-Governmental Organizations Section shall send a notice to the non-governmental organization concerned reminding it of the reporting requirement and of the penalties for non-reporting, and requesting that the report be submitted by the first day of the following January;

   (c) If the outstanding report is not received by the first day of the following January, the Non-Governmental Organizations Section shall send a final letter to the non-governmental organization concerned, requesting that the report be submitted by the first day of the following May and warning that non-receipt of the report by that date shall result in the suspension of consultative status, and shall copy the letter to the Permanent Mission to the United Nations of the country where the non-governmental organization has its headquarters;

   (d) If no report is received by the first day of the following May, the Committee on Non-Governmental Organizations shall, at its resumed session, compile a list of all non-governmental organizations with outstanding reports and recommend to the Economic and Social Council the immediate suspension of their consultative status for a period of one year;
(e) Following a decision by the Economic and Social Council to suspend the consultative status of any non-governmental organization with an outstanding report, the Non-Governmental Organizations Section shall write to the non-governmental organization concerned advising it of the suspension, requesting the submission of the outstanding report by the first day of May of the following year and warning that failure to submit the report by such time shall result in the withdrawal of consultative status, and shall copy the letter to the Permanent Mission to the United Nations of the country where the non-governmental organization has its headquarters;

(f) At its resumed session to be held the following May, the Committee on Non-Governmental Organizations shall review the status of reporting of the non-governmental organizations whose consultative status had been suspended and shall recommend to the Economic and Social Council either the reinstatement of consultative status for any non-governmental organization that submitted its report thereafter or the withdrawal of consultative status for any non-governmental organization with a continued outstanding report;

2. Reiterates that, in accordance with paragraph 56 of its resolution 1996/31, in cases where the Committee on Non-Governmental Organizations has decided to recommend that the general or special consultative status of a non-governmental organization or its listing on the Roster be suspended or withdrawn, the non-governmental organization concerned shall have an opportunity to present its response for appropriate consideration by the Committee as expeditiously as possible;

3. Also reiterates that, in accordance with paragraph 59 of its resolution 1996/31, a non-governmental organization whose consultative status or whose listing on the Roster is withdrawn may be entitled to reapply for consultative status or for inclusion on the Roster not sooner than three years after the effective date of such withdrawal;

4. Requests the Non-Governmental Organizations Section to ensure that the revised guidelines are clearly posted on the Section’s website and included in the initial letter sent to each non-governmental organization that has been granted general or special consultative status.

The Economic and Social Council,

Recalling the provisions of its resolution 1996/31 of 25 July 1996 on the consultative relationship between the Economic and Social Council and non-governmental organizations,
Aware of the evolving relationship between the United Nations and the non-governmental organizations community, reflecting the broader and more substantive involvement of non-governmental organizations with the Economic and Social Council and the United Nations at large,

Mindful of the significantly large increase in the number of non-governmental organizations in consultative status with the Economic and Social Council that has occurred in recent years and conscious that the number will continue to increase in the foreseeable future,

Mindful also of the demands that the participation of the expansion of non-governmental organizations places on the workload and resources of the Non-Governmental Organizations Section of the Department of Economic and Social Affairs of the United Nations Secretariat,

Recalling paragraph 68 of Economic and Social Council resolution 1996/31 regarding the requirement for adequate Secretariat support to fulfil the mandate defined for the Committee on Non-Governmental Organizations with respect to carrying out the wider range of activities in which the enhanced involvement of non-governmental organizations was envisaged,

Recalling the regular programme of technical cooperation under section 22 of the programme budget of the United Nations,

Emphasizing the need to ensure that the Non-Governmental Organizations Section of the Department of Economic and Social Affairs is able to operate efficiently in carrying out its mandate at the optimum level of performance,

Emphasizing also the need to strengthen partnership with the civil society as emphasized by the Secretary-General within the reform of the United Nations by integrating analytical capacity with technical cooperation activities for greater effectiveness and efficiency,

1. Regrets the weak capacity of the Non-Governmental Organizations Section of the Department of Economic and Social Affairs of the United Nations Secretariat and requests the Secretary-General to ensure the full utilization of the resources allocated to it as well as the filling of all vacant posts and to report on proposals to further strengthen the capacity of the Non-Governmental Organizations Section within the context of the proposed programme budget for the biennium 2010-2011 and the maintenance of the institutional memory of the Non-Governmental Organizations Section, thereby making full use of lessons learned and best practices within the Section so as to enable it to carry out its responsibilities efficiently and effectively;

2. Recommends that a technical cooperation programme be established for the Non-Governmental Organizations Section aiming at providing advisory services, the conduct of capacity-building workshops designed to launch the United Nations Non-Governmental Organizations Informal Regional Network (UN-NGO-IRENE), at regional, subregional and national levels, and the development of training materials and the promotion of pilot joint partnership initiatives, projects and programmes involving the United Nations, the civil society and Governments worldwide, especially for the countries most in need.

Recognizing the commitments made in meeting the special needs of Africa at the 2005 World Summit, 56

Remaining concerned that Africa is the only continent currently not on track to achieve any of the goals set out in the Millennium Declaration by 2015, and in this regard emphasizing that concerted efforts and continued support are required to fulfil the commitments to address the special needs of Africa,

Recognizing that capacity-building is essential for the successful implementation of the New Partnership for Africa’s Development, and recognizing also the need for continued support from the international community,

Bearing in mind that African countries have primary responsibility for their own economic and social development, that the role of national policies and development strategies cannot be overemphasized and that their development efforts need to be supported by an enabling international economic environment, and in this regard recalling the support given by the International Conference on Financing for Development 57 to the New Partnership,

The Economic and Social Council,

Recalling the outcomes of the World Summit for Social Development and the twenty-fourth special session of the General Assembly,

Reaffirming that the Copenhagen Declaration on Social Development and the Programme of Action of the World Summit for Social Development\(^{60}\) and the further initiatives for social development adopted by the General Assembly at its twenty-fourth special session,\(^{61}\) and a continued global dialogue on social issues, constitute the basic framework for the promotion of social development for all at the national and international levels,

Recognizing that a people-centred approach must be at the centre of economic and social development,

Recalling the United Nations Millennium Declaration\(^{62}\) and the 2005 World Summit Outcome,\(^{63}\)

Recalling also the ministerial declaration adopted by the Economic and Social Council at the high-level segment of its substantive session of 2006,\(^{64}\)

Recalling further its resolution 2007/2 of 17 July 2007 and the theme of the coordination segment of its 2007 substantive session, “The role of the United Nations system in promoting full and productive employment and decent work for all”,

Recognizing that approximately 1.5 billion people, or one third of the working-age population worldwide, were either unemployed or underemployed in 2006,\(^{65}\) that of this number about 200 million were unemployed, and that the remaining 1.3 billion constituted the working poor who are unable to earn enough to lift themselves and their family members out of poverty, and hence emphasizing the

dual challenge of creating new productive jobs and improving the quality of existing ones,

Recognizing also that the decent-work agenda of the International Labour Organization is an important instrument for achieving the objective of full and productive employment and decent work for all through the promotion and realization of the fundamental principles and rights at work, creation of greater and equal opportunities for women and men to secure decent employment and income, and enhancement of the coverage and effectiveness of social protection for all and the strengthening of social dialogue,

1. Reaffirms the central importance of full and productive employment and decent work to poverty eradication and social integration;

2. Also reaffirms that the goals of full and productive employment and decent work are crucial to poverty eradication and should be made a central objective of relevant national and international policies as well as national development strategies, including poverty reduction strategies, as part of the efforts to achieve the internationally agreed development goals, including the Millennium Development Goals;

3. Calls upon Governments as a matter of priority to continue efforts towards ratifying, where Member States have not done so, and fully implementing the International Labour Organization conventions concerning respect for fundamental principles and rights at work, namely, freedom of association and the effective recognition of the right to organize and bargain collectively, and the elimination of all forms of forced or compulsory labour, as well as the effective elimination of child labour and discrimination in respect of employment and occupation, and to consider also the ratification and full implementation of other International Labour Organization conventions concerning the employment rights of women, youth, persons with disabilities, migrants and indigenous peoples;

4. Affirms its strong support for fair globalization and the need to translate growth into eradication of poverty and commitment to strategies and policies that aim to promote full, freely chosen and productive employment and decent work for all and that these should constitute a fundamental component of relevant national and international policies as well as national development strategies, including poverty reduction strategies, and reaffirms that employment creation and decent work should be incorporated into macroeconomic policies, taking fully into account the impact and social dimension of globalization, the benefits and costs of which are often unevenly shared and distributed;

5. Reaffirms that there is an urgent need to create an environment at the national and international levels that is conducive to the attainment of full and productive employment and decent work for all as a foundation for sustainable development and that an environment that supports investment, growth and entrepreneurship is essential to the creation of new job opportunities, and also reaffirms that opportunities for men and women to obtain productive work in conditions of freedom, equity, security and human dignity are essential to ensuring the eradication of hunger and poverty, the improvement of economic and social well-being for all, the achievement of sustained economic growth and sustainable development of all nations and a fully inclusive and equitable globalization;

right of peoples to self-determination, in particular people living under colonial or
other forms of alien domination or foreign occupation, which adversely affect their
social and economic development, including their exclusion from labour markets;

7. Reaffirms that violence, in its many manifestations, including domestic
violence, especially against women, children, older persons and persons with
disabilities, is a growing threat to the security of individuals, families and
communities everywhere; that total social breakdown is an all-too-real
contemporary experience; that organized crime, illegal drugs, the illicit arms trade,
trafficking in women and children, ethnic and religious conflict, civil war, terrorism,
all forms of extremist violence, xenophobia, and politically motivated killing and
even genocide present fundamental threats to societies and the global social order;
and that they also present compelling and urgent reasons for action by Governments
individually and, as appropriate, jointly to foster social cohesion while recognizing,
protecting and valuing diversity;

8. Also reaffirms that each country has the primary responsibility for its
own economic and social development and that the role of national policies and
development strategies cannot be overemphasized, and underlines the importance of

sustainable development, poverty eradication and the strengthening of their
democratic systems;

enabling environment for social development and poverty eradication through
increasing market access for developing countries, technology transfer on mutually
agreed terms, financial aid and a comprehensive solution to the external debt
problem;

10. Welcomes the increased resources that are becoming available as a result
of the establishment of timetables by many developed countries for achieving the
target of 0.7 per cent of gross national product for official development assistance to
developing countries, as well as the target of 0.15 to 0.20 per cent of gross national
product of developed countries for official development assistance to least
developed countries, and urges those developed countries that have not yet done so
to make concrete efforts in this regard in accordance with their commitments;

11. Acknowledges that good governance and the rule of law at the national
and international levels are essential for sustained economic growth, sustainable
development and the eradication of poverty and hunger;

12. Stresses that full and productive employment and decent work for all are
key elements of sustainable development of all countries, and should therefore be a
priority objective of national policies and international cooperation;

13. Also stresses that policies should be devised through which to pursue
both economic efficiency and equity;

14. Urges Governments, with the cooperation of relevant entities, to develop
systems of social protection and to extend or broaden, as appropriate, their
effectiveness and coverage, including for workers in the informal economy,
recognizing the need for social protection systems to provide social security and
support labour-market participation; invites the International Labour Organization to strengthen its social protection strategies, and policies on extending social security coverage; and also urges Governments, while taking account of national circumstances, to focus on the needs of those living in, or vulnerable to, poverty and give particular consideration to universal access to basic social security systems;

15. Invites the International Labour Organization to continue to assist States, as appropriate and upon request, in the strengthening of their social protection strategies and policies on extending social security coverage;

16. Calls upon the public sector to continue to play its important role in developing an environment that enables the effective generation of full and productive employment and decent work for all, while acknowledging its role as an employer;

18. Encourages Governments to continue to pursue the creation of a conducive environment for enterprise development in both rural and urban areas, including by giving particular attention to policies that promote micro-, small and medium-sized enterprises, cooperatives and other forms of social enterprises and the participation and entrepreneurship of women, including rural women, through, inter alia, improved administrative regimes for the registration of small businesses, access to microcredit, social security systems and information on markets and new technology, as well as improved regulations;

19. Stresses that policies and strategies for achieving full employment and decent work for all should include specific measures to promote gender equality and foster social integration of social groups, such as youth, persons with disabilities, and older persons, as well as migrants and indigenous peoples;

20. Also stresses that these policies and strategies should promote gender equality, empowerment of women and better possibilities for all to reconcile work and private and family life;

21. Encourages Governments, the private sector, non-governmental organizations and other actors of civil society to promote and protect the rights of women workers, to take action to remove structural and legal barriers as well as stereotypic attitudes towards gender equality at work, and to initiate positive steps to promote equal pay for equal work or work of equal value;

22. Reaffirms that social integration policies should seek to reduce inequalities, promote access to basic social services, education for all and health care, and increase the participation and integration of social groups;

23. Also reaffirms the commitment to develop and implement strategies that give persons with disabilities everywhere equal opportunities to secure full access to productive employment and decent work on an equal basis with others and without any kind of discrimination, including by promoting a labour market and a work environment that are open, inclusive and accessible to all and by ensuring just and favourable conditions of work;
24. **Urges** the development and implementation of integrated policies and strategies that promote opportunities for youth, including those living in rural areas, to prepare for, access and retain full and productive employment and decent work, and for mainstreaming youth employment into national development strategies, as well as encourage young people’s entrepreneurship, inter alia, through entrepreneurship education; at the same time, also urges that Governments should promote access to work through integrated policies that enable the creation of new and quality jobs for young people and facilitate access to those jobs; and stresses the importance of the Youth Employment Network as a peer exchange mechanism at the national, regional and international levels;

25. **Stresses** the importance of creating an enabling environment for social dialogue by ensuring effective representation and participation of workers’ organizations in order to contribute to the development of policies for achieving broad-based social progress, in particular for promoting full and productive employment and decent work for all;

26. **Also stresses** that non-discrimination against older persons, especially in the labour market, is crucial;

27. **Acknowledges** the important nexus between international migration and social development, and stresses the importance of effectively enforcing labour laws applicable to migrant workers and members of their families, including, inter alia, any related to remuneration, conditions of health, safety at work and the right of freedom of association, and reaffirms that migrants, regardless of their immigration status, should be accorded the protection of all human rights;

28. **Recognizes** the importance of the International Labour Organization Declaration on Fundamental Principles and Rights at Work;

29. **Reaffirms** the critical role of both formal and non-formal education in the achievement of full employment and decent work for all, in particular basic education and training for eradicating illiteracy; and in this regard, also reaffirms the need to intensify efforts to implement effectively the International Plan of Action for the United Nations Literacy Decade and to integrate substantially those efforts in the Education for All process and other activities of the United Nations Educational, Scientific and Cultural Organization, as well as other literacy initiatives within the framework of the internationally agreed development goals, including the Millennium Development Goals;

Future organization and methods of work of the Commission for
Social Development

The Economic and Social Council,

Recalling its resolution 2005/11 of 21 July 2005 on the future organization and
methods of work of the Commission for Social Development, in which the
Economic and Social Council decided that the Commission should review the
functioning of the two-year review and policy cycle in order to ensure that that
approach enhanced its effectiveness and functioning,

Recalling also its resolution 2006/18 of 26 July 2006, in which the Economic
and Social Council noted the usefulness of identifying the themes for the 2009-2010
review and policy cycle during the forty-sixth session of the Commission,

Noting that the Commission discussed the priority theme of “Promoting full
employment and decent work for all” at its forty-fifth and forty-sixth sessions, as
the first of the core themes of the World Summit for Social Development addressed
under the two-year review and policy cycle,

1. Reaffirms that discussing one core issue as presented in the outcome
document of the World Summit for Social Development\(^{69}\) over a two-year period
allows the Commission for Social Development to go into greater depth by also
addressing related cross-cutting issues, emerging issues and linkages with other
issues relevant to the theme under discussion;

2. Decides that the priority theme for the 2009-2010 review and policy
cycle should be “Social integration”, taking into account its relationship with
poverty eradication and full employment and decent work for all;

3. Takes note of its decision in resolution 2005/11, as recalled in resolution
2006/18, that the Commission should discuss each of the core themes of the World
Summit for Social Development — poverty eradication, full employment and social
integration — under the two-year review and policy cycle;

4. Notes the usefulness of identifying the theme for the 2011-2012 review
and policy cycle during the forty-eighth session of the Commission;

7. Also urges States, relevant United Nations entities, including the agencies, funds and programmes, regional and international financial and development institutions, civil society and the private sector to promote the participation of persons with disabilities on an equal basis with others in decision-making and their involvement in the formulation, implementation and evaluation of strategies, plans and programmes pertaining to them;

The Economic and Social Council,

Recalling General Assembly resolution 56/8 of 21 November 2001, in which the Assembly proclaimed 2002 the United Nations Year for Cultural Heritage, and resolutions 58/17 of 3 December 2003 and 61/52 of 4 December 2006, on the return or restitution of cultural property to the countries of origin,

Stressing the importance of fostering international law enforcement cooperation to combat trafficking in cultural property and, in particular, the need to increase the exchange of information and experiences in order for competent authorities to operate in a more effective manner,

Stressing also that the entry into force of the United Nations Convention against Transnational Organized Crime\(^\text{89}\) has created a new impetus to international cooperation in countering and curbing transnational organized crime, which will in turn lead to innovative and broader approaches to dealing with the various manifestations of such crime, including trafficking in cultural property,

\(^\text{87}\) It is understood that the expression “trafficking in cultural property” shall be interpreted in conformity with the relevant international instruments, including the Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property.

**Strengthening prevention of urban crime: an integrated approach**

_The Economic and Social Council_,

**Recalling** General Assembly resolution 62/175 of 18 December 2007 on strengthening the United Nations Crime Prevention and Criminal Justice Programme, in particular its technical cooperation capacity, in which the Assembly reaffirmed the importance of the United Nations Crime Prevention and Criminal Justice Programme in promoting effective action to strengthen international cooperation in crime prevention and criminal justice, as well as of the work of the United Nations Office on Drugs and Crime in the fulfilment of its mandate in crime prevention and criminal justice, including providing to Member States, upon request and as a matter of high priority, technical cooperation, advisory services and other forms of assistance, and coordinating with and complementing the work of all relevant and competent United Nations bodies and offices, and recalling also that, in that resolution, the Assembly drew attention to urban crime as an emerging policy issue,

**Recalling also** its resolution 2007/12 of 25 July 2007 on the strategy for the period 2008-2011 for the United Nations Office on Drugs and Crime, in which community-centred crime prevention was designated a result area,

Recognizing the importance of the engagement between civil society and law enforcement authorities in the planning and implementation of crime prevention activities,

Promoting sustainability and integrality in alternative development as an important part of drug control strategy in States where illicit crops are grown to produce drugs

The Economic and Social Council,

Recalling the Political Declaration adopted by the General Assembly at its twentieth special session, in which Member States recognized that action against the world drug problem was a common and shared responsibility,

Reaffirming the United Nations Millennium Declaration, in particular the Millennium Development Goals of eradicating extreme poverty and hunger and ensuring environmental sustainability,

Convinced that, in the review of the progress achieved in meeting the goals and targets set in the Political Declaration adopted by the General Assembly at its twentieth special session, there is a genuine need for the international community to assess the way alternative development has been practised in the past and ensure that, overall, the approaches to alternative development are fully implemented,

Recognizing the significant achievements and efforts of countries in South-East Asia in recent decades towards eliminating illicit cultivation of opium poppy and cannabis and recognizing also the commitment of the Association of Southeast Asian Nations to making South-East Asia free of illicit drugs by 2015,

Recognizing also the significant achievements of the Andean countries in the implementation of alternative development and preventive alternative development programmes, as presented in the fifth report of the Executive Director on the world drug problem,\(^{109}\) and noting that those achievements were attained in accordance with national specificities, with significant national resources and with the support of international cooperation,

**Recognizing further** the success of the long-term, holistic and integrated approach to solving the problem of opium poppy cultivation, including its correlation with poverty, that has been applied for forty years in national and international programmes in Thailand, which led the United Nations Development Programme in May 2006 to present the first Human Development Lifetime Achievement Award to King Bhumibol Adulyadej of Thailand as the initiator of that approach,

**Acknowledging** that the success of alternative development and preventive alternative development, as appropriate, may be dependent upon, inter alia, the following essential elements:

(a) Long-term investments by Governments and international donors;

(b) The efficiency of national institutions responsible for drug control policies and of institutions related to the promotion of alternative development;

(c) Synergy and trust among the Government, local administrations and communities in building local ownership;

(d) An adequate response to human needs and dignity in the context of sustainable rural development and community self-reliance;

(e) The creation of a value chain by utilizing local wisdom, capacity-building, marketing and entrepreneurship;

1. **Recalls** the Action Plan on International Cooperation on the Eradication of Illicit Drug Crops and on Alternative Development,\(^{110}\) which continues to have practical relevance and in which it is stated that alternative development is an important component of a balanced and comprehensive illicit crop eradication strategy and is intended to promote lawful and sustainable socio-economic options for those communities and population groups that have resorted to illicit cultivation as their only viable means of obtaining a livelihood, contributing in an integrated way to the eradication of poverty;\(^{111}\)

2. **Emphasizes** that the problem of illicit production of narcotic drugs is often related to development problems, in particular poverty, poor health conditions and illiteracy, and that it must be tackled in a larger development context through a holistic and integrated approach;

4. **Recognizes** the significant role played by developing countries with extensive expertise in alternative development and preventive alternative development and the importance of outreach activities aimed at promoting a set of best practices and lessons learned in that area and sharing those best practices and lessons learned with States affected by illicit crop cultivation, including those emerging from conflict, with a view to using them, where appropriate, in accordance with national specificities of each State;

5. **Urges** donor Governments, as well as multilateral, international and regional financial institutions, in conformity with the principle of shared responsibility and as a sign of their commitment to fighting illicit drugs in a comprehensive and balanced manner, to redouble their efforts to enhance international cooperation, especially trilateral cooperation aimed at utilizing the expertise of developing countries and the financial support of developed countries in assisting other developing countries in reducing illicit drug crops through alternative development and preventive alternative development, as appropriate, and to consider increasing their financial and material support and technical assistance and providing a flexible and sufficiently long-term commitment to States affected by illicit crop cultivation;

6. **Commends** the United Nations Office on Drugs and Crime for its continued and progressive work on alternative development, described in its report entitled *Alternative Development: A Global Thematic Evaluation: Final Synthesis Report*, especially the lessons learned and the recommendations contained therein, and acknowledges the need to consider providing the Office with additional funding in that area;

8. **Encourages** Member States, in the context of the review of the progress achieved in meeting the goals and targets set in the Political Declaration adopted by the General Assembly at its twentieth special session, to consider developing a set of international guiding principles on alternative development, based on the sharing of best practices and lessons learned in different countries and regions, and acknowledging the best practices and lessons learned in sustainable alternative livelihood development of Thailand, annexed to the present resolution;

9. **Requests** the Secretary-General to transmit the text of the present resolution to multilateral, international and regional financial institutions and to all Governments for consideration and implementation;

10. **Requests** the Executive Director of the United Nations Office on Drugs and Crime to report to the Commission on Narcotic Drugs at its fifty-second session on the implementation of the present resolution.
Annex

Best practices and lessons learned in sustainable alternative livelihood development of Thailand

1. First and foremost, alternative development, which in the context of the Thai experience is referred to as “sustainable alternative livelihood development”, must be people-centred. The Doi Tung development project in Thailand served as the model for the present set of best practices and lessons learned. The outlook, design and implementation were developed taking into account a fundamental question: how will people benefit from this project? That became the key performance indicator for the project.

2. The main objective of sustainable alternative livelihood development is to transform poor and vulnerable communities, especially in rural areas, from social and economic dependency or sub-sufficiency to full socio-economic sufficiency, in a participatory manner and at a pace appropriate to each stage, to allow the changes to be accepted and introduced by the communities. Keeping in mind the goal of sustainability, development practitioners should see their role as facilitators of progress and should plan their exit strategy to enable the communities to continue the activities without external intervention.

3. Sustainability in this context means that the communities have sufficient economic capacity in their factors of production and marketing and are able to maintain equitable social and cultural integrity and live in harmony with their natural environment (coexist with nature). With this definition in mind, sufficient health care must be made available because sick people cannot be economically productive. Ideally, an income-generating mechanism should be employed that allows people and a healthy natural environment to benefit greatly from one another. Continuous education will ensure that future generations will be able to pursue legitimate livelihoods, cope with the pressures of globalization and create for themselves opportunities for growth.

4. When applying sustainable alternative livelihood development in the context of drug control, the eradication of illicit crops should not be the only immediate goal. The progressive introduction of viable alternative livelihoods in the broader context of rural development is needed to tackle the root cause of illicit crop cultivation — poverty — without severely curtailing the only available means of survival of the people involved.

5. Activities that provide people with alternative cash income and/or produce immediate health or social benefits within the first few months or days (so-called quick hits) are vital to building trust and enabling an immediate transition from illegitimate to legitimate sources of income, which can begin to transform the economic prospects of a community. Successful quick hits build confidence and strengthen cooperation among stakeholders at all levels, from people at the grass-roots level and local authorities to leaders at the national level.

6. Medium-term and long-term activities are introduced simultaneously in order to ensure that the economic and social benefits are long-lasting and that the areas concerned remain free of illicit drug cultivation for a long time. Development activities must be based on continuity: each activity should lead into another, build on the success of previous initiatives and, over time, increase the hope and capabilities of the persons involved.
7. It is necessary to achieve a balance between a bottom-up and a top-down approach. Strong and committed leadership is required to ensure that development policies and activities are based on a true understanding of the needs and concerns of the target communities at the grass-roots level. Clear and constant communication is critical, especially at the beginning, for knowledge and experiences to be transferred not only from development practitioners but also to them.

8. Viable livelihoods should be available to all members of the community: the young and the elderly; the fit and the infirm; and men and women alike. Having a variety of income-generating activities may serve as a safeguard against weakened interests in an individual product or activity. Livelihood diversification is in fact a major success factor in sustainable alternative livelihood development (single-crop solutions are rarely sustainable).

9. Combining local wisdom and available resources with a market-driven product development approach and effective management will lead to the creation of a viable value chain at the local level. Revenue from value-added goods locally manufactured by such an enterprise must contribute to the social benefits of the target communities and society in general. Such social entrepreneurship — the practice of using business profits to generate social goods — can lead to real socio-economic sustainability.

10. To ensure that development objectives are realized as expected, mechanisms must be in place to allow frequent assessments and necessary adjustments, starting with comprehensive census baseline data captured through both qualitative and quantitative development indicators. Project monitoring and evaluation hold development practitioners accountable for their action, and that is crucial, as people’s lives depend on the performance of those practitioners and imprudent and uncaring development often has adverse effects.

11. Ultimately, the key to sustainable alternative livelihood development is community ownership, where capacities and economic activities have been developed to such an extent that the communities can become owners in their ventures instead of serving only as contract farmers or employees. Community ownership means not only physical ownership of the enterprises but also emotional ownership, on the part of the community, of its own development and future, from the very start.

12. Since the issue of sustainability envisages the long-term commitment of all parties involved, it also calls for longer-term and sufficiently flexible funding from a variety of sources, including Governments, international organizations, multilateral financial institutions and other donors and development partners.

Provision of international assistance to the most affected States neighbouring Afghanistan

The Economic and Social Council,

Acknowledging that transit States are faced with multifaceted challenges related to the increasing amount of illicit drugs transiting through their territory as a result of the increasing supply and demand on illicit drug markets,

Keeping in mind that the bulk of the illicit drugs originating in Afghanistan are smuggled through the Islamic Republic of Iran, Pakistan and other countries neighbouring Afghanistan before reaching their countries of destination,

Considering that a large number of transit States, in particular the States neighbouring Afghanistan, are developing countries or countries with economies in transition and are faced with multifaceted challenges, including rising levels of drug-related crime and increased prevalence of drug abuse,

113 General Assembly resolution S-20/2, annex.
114 General Assembly resolutions S-20/4 A to E.
Bearing in mind that the constantly changing tactics of drug traffickers and the introduction of new varieties of illicit drugs increase the challenges and harm that they cause in Afghanistan, in the States neighbouring Afghanistan and in other parts of the world,

1. **Reaffirms** its commitment, in accordance with the principle of shared responsibility, to counter the world drug problem in all its manifestations, in a coordinated manner, in particular by providing technical assistance and support to the transit States most affected by drug trafficking;

2. **Calls upon** the Government of Afghanistan to intensify, with the support of the international community, its efforts to continue implementing, in particular, the eight pillars\(^{116}\) of the National Drug Control Strategy,\(^{112}\) to identify and dismantle laboratories illicitly manufacturing heroin and morphine and to trace and curb the illicit supply of precursors;

3. **Commends** regional initiatives to strengthen international and regional cooperation aimed at countering the threat posed by the illicit production of drugs in Afghanistan and trafficking in drugs originating in that country;

5. **Calls upon** all Member States and the United Nations Office on Drugs and Crime to provide the technical assistance and support needed for strengthening the initiatives and efforts of Afghanistan, the Islamic Republic of Iran and Pakistan to fight drug trafficking, thereby also reducing the deleterious impact of illicit drugs in all parts of the world, and invites Member States and other donors to provide extrabudgetary contributions for those purposes in accordance with the rules and procedures of the United Nations;

6. **Encourages** the States neighbouring Afghanistan to enhance coordination through existing regional mechanisms for strengthening border cooperation and information exchange;

7. **Encourages** Member States and the United Nations Office on Drugs and Crime to provide technical assistance and support needed for strengthening the efforts of States neighbouring Afghanistan to fight drug trafficking, and invites Member States and other donors to provide extrabudgetary contributions for those purposes in accordance with the rules and procedures of the United Nations;

8. **Welcomes** the trilateral ministerial meeting held in Vienna in June 2007, with the assistance of the United Nations Office on Drugs and Crime, which brought together high-level officials from Afghanistan, the Islamic Republic of Iran and Pakistan, and supports the decision to hold another trilateral meeting in the Islamic Republic of Iran in 2008;

9. **Emphasizes** the importance of taking measures to reduce demand and the adverse consequences of drug abuse in conjunction with measures to reduce supply in order to effectively counter the menace posed by illicit drugs to the entire international community;

\(^{116}\) S/2006/106, annex A.
10. **Calls upon** Afghanistan to mainstream, with the assistance of the international community, the counter-narcotics programme in the forthcoming Afghan national development strategy;

Recognizing that training is critical for increasing awareness, knowledge, commitment and the capacity of staff to mainstream a gender perspective into United Nations policies and programmes and that the provision of effective gender training requires adequate financial and human resources,

Underlining the catalytic role played by the Commission on the Status of Women, as well as the important role played by the Economic and Social Council and the General Assembly, in promoting and monitoring gender mainstreaming within the United Nations system,

Expressing serious concern that the urgent goal of achieving 50/50 gender balance in the United Nations system, especially at senior and policymaking levels, with full respect for the principle of equitable geographical distribution, in conformity with Article 101, paragraph 3, of the Charter of the United Nations, remains unmet and that the representation of women in the United Nations system has remained almost static, with negligible improvement in some parts of the system, and in some cases has even decreased, as reflected in the report of the Secretary-General on the improvement of the status of women in the United Nations system,150

   a. Strengthen institutional accountability mechanisms, including through a more effective monitoring and evaluation framework for gender mainstreaming based on common United Nations evaluation standards;

   d. Ensure that programmes, plans and budgets visibly mainstream gender perspectives and allocate adequate financial and human resources for gender mainstreaming commensurate with the organizational gender equality goals, including for mandatory training on gender mainstreaming, especially gender analysis, for all staff and for the implementation of strategies, policies and action plans;

   e. Share and disseminate good practices, tools and methodologies electronically and through regular meetings on gender mainstreaming, including through the Inter-Agency Network on Women and Gender Equality and its task forces, as well as the United Nations country teams;

   f. Address gaps by strengthening coordination and synergy between policy and practice in mainstreaming a gender perspective in their respective fields of work;

   g. Enhance collaboration and coordination in the work of gender specialists and gender focal points working, inter alia, in the areas of peace and security, humanitarian affairs and economic and social development;

   h. Provide specific ongoing capacity-building, inter alia, through training for gender specialists and gender focal points, including in the field;

(m) Mainstream a gender perspective and pursue gender equality in their country programmes, planning instruments and sector-wide programmes and articulate specific country-level goals and targets in this field in accordance with national development strategies;

(n) Collaborate with the resident coordinator system to provide gender specialist resources in support of gender mainstreaming in country-level activities in all sectors in which they operate, working closely with relevant national counterparts;

(o) Promote inter-agency cooperation through the Inter-Agency Network on Women and Gender Equality and the United Nations System Chief Executives Board for Coordination, through its High-level Committee on Programmes, the United Nations Development Group and its High-level Committee on Management, in order to ensure consistency and synergy in the implementation of the United Nations system-wide policy and strategy on gender mainstreaming;

(p) Promote the collection, analysis and use of data disaggregated by sex during programme development and evaluation of gender mainstreaming to assess progress towards achieving gender equality and the empowerment of women;

7. **Requests** the Inter-Agency Network on Women and Gender Equality to continue to provide practical support to its members in gender mainstreaming, explore possibilities for developing an accessible and consolidated database of trained facilitators at the country and regional levels, in consultation with Member States, and report regularly to the United Nations System Chief Executives Board for Coordination in order to facilitate the incorporation of gender mainstreaming perspectives into their work;
8. Requests the Secretary-General to submit to the Economic and Social Council at its substantive session of 2009 a detailed report on progress made in the implementation of the present resolution, including updated information on the implementation of paragraph 4 of Council resolution 2006/36.

Recalling in particular paragraph 9 of General Assembly resolution 62/210,

Taking note of the report of the Secretary-General,152

Stressing that core diplomatic training offered by the Institute is a service accessible to diplomats of the entire membership of the United Nations and strengthens capacities of diplomats to perform their multilateral duties,

Noting the solid overall financial situation of the Institute, with a projected increase of funding of at least 26 per cent between the previous and current bienniums, and expressing its appreciation to the Governments and private institutions that have made or pledged financial and other contributions to the Institute,

Noting also that, despite the growing need for training and capacity development, voluntary contributions remain at a low level, putting at risk the training courses that the Institute delivers to diplomats and delegates accredited to United Nations Headquarters in New York and to the United Nations Offices at Geneva, Vienna and Nairobi,

Reiterating that training and capacity-development activities should be accorded a more visible and larger role in support of the management of

3. **Considers** that the core diplomatic training offered by the Institute is unique in its beneficiary base and its reliance on United Nations expertise;

4. **Notes with concern** that a lack of voluntary contributions could lead to a cessation of this service which is particularly important for the training of delegates from developing and least developed countries;

5. **Appeals**, in this regard, to the Institute to continue its fund-raising strategy and to all Governments, in particular those of developed countries, and to private institutions that have not yet contributed financially or otherwise to the Institute, to give it their generous financial and other support, and urges the States that have interrupted their voluntary contributions to consider resuming them in view of the Institute’s strategic reforms;

6. **Requests**, in this regard, the Secretary-General to submit a report to the General Assembly at its sixty-third session on the issue of financing the core diplomatic training activities of the Institute.

2008/235
Agreed conclusions on financing gender equality and the empowerment of women

At its 40th plenary meeting, on 23 July 2008, the Economic and Social Council decided to transmit the following agreed conclusions adopted by the Commission on the Status of Women at its fifty-second session to the General Assembly as an input into the preparations for and outcome of the Follow-up International Conference on Financing for Development to Review the Implementation of the Monterrey Consensus, to be held in Doha from 29 November to 2 December 2008:

1. The Commission on the Status of Women reaffirms the Beijing Declaration and Platform for Action, which emphasized the need for political commitment to make available human and financial resources for the empowerment of women and that funding had to be identified and mobilized from all sources and across all sectors to achieve the goals of gender equality and the empowerment of women, and the outcome of the twenty-third special session of the General Assembly, which called upon Governments to incorporate a gender perspective into the design, development, adoption and execution of all policies and budgetary processes, as appropriate, in order to promote equitable, effective and appropriate resource allocation and establish adequate budgetary allocations to support gender equality and development programmes that enhance women’s empowerment.

2. The Commission reaffirms the declaration adopted on the occasion of the tenth anniversary of the Fourth World Conference on Women, which stressed that challenges and obstacles remained in the implementation of the Beijing Declaration and Platform for Action and the outcome documents of the twenty-third special session of the General Assembly, and pledged to take further action to ensure their full and accelerated implementation.

3. The Commission recalls the outcome of the International Conference on Financing for Development held in Monterrey, Mexico, in 2002, which affirms, inter alia, that a holistic approach to the interconnected national, international and systemic challenges of financing for development — sustainable, gender-sensitive, people-centred development — in all parts of the globe is essential.

4. The Commission also recalls the 2005 World Summit and reaffirms that the full and effective implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly, the International Conference on Population and Development and other relevant United Nations summits and conferences is an essential contribution to the achievement of the internationally agreed development goals, including those contained in the United Nations Millennium Declaration, in particular, on the promotion of gender equality and the empowerment of women.

5. The Commission reaffirms the Convention on the Elimination of All Forms of Discrimination against Women and the Optional Protocol thereto and the Convention on the Rights of the Child, and takes note of the work of the Committee on the Elimination of Discrimination against Women towards the
practical realization of the principle of equality between women and men and between girls and boys.

6. The Commission also reaffirms that States have primary responsibility for promoting gender equality and the empowerment of women and girls and that gender mainstreaming and national machineries are necessary and play a critical role in the implementation of the Beijing Declaration and Platform for Action and that, in order for national machineries to be effective, a strong institutional framework with clear mandates, location at the highest possible level, accountability mechanisms, partnership with civil society, a transparent political process, adequate financial and human resources and continued strong political commitment are crucial.

7. The Commission recalls that the Platform for Action recognizes that its implementation requires adequate financial resources committed at the national and international levels and that strengthening national capacities in developing countries in this regard requires striving for the fulfilment of the agreed targets of overall official development assistance from developed countries as soon as possible. The Commission recognizes the importance of the full utilization of all sources of development finance.

8. The Commission also recognizes the importance of gender mainstreaming as a tool for achieving gender equality and, to that end, the need to promote the mainstreaming of a gender perspective in the design, implementation, monitoring and evaluation of policies and programmes in all political, economic and social spheres and to strengthen the capabilities of the United Nations system in the area of gender.

9. The Commission reaffirms that gender equality and the promotion and protection of the full enjoyment of human rights and fundamental freedoms for all are essential for advancing development, peace and security, and stresses that peace is inextricably linked to equality between women and men and to development.

10. The Commission reaffirms that the promotion and protection of, and respect for, the human rights and fundamental freedoms of women, including the right to development, which are universal, indivisible, interdependent and interrelated, should be mainstreamed into all policies and programmes aimed at the eradication of poverty, and also reaffirms the need to take measures to ensure that every person is entitled to participate in, contribute to and enjoy economic, social, cultural and political development.

11. The Commission notes the growing body of evidence demonstrating that investing in women and girls has a multiplier effect on productivity, efficiency and sustained economic growth and that increasing women’s economic empowerment is central to the achievement of the Millennium Development Goals and to the eradication of poverty, and recognizes that adequate resources need to be allocated at all levels, mechanisms and capacities need to be strengthened and gender-responsive policies need to be enhanced to fully utilize the multiplier effect.

12. The Commission reaffirms the goals aimed at reducing maternal and child mortality, combating HIV/AIDS and improving maternal health by 2015, as contained in the Millennium Development Goals, as well as the goal of
achieving universal access to reproductive health, as set out at the International Conference on Population and Development, which are critical to the promotion of gender equality and the empowerment of women and girls.

13. The Commission recalls the recognition in the Beijing Platform for Action of the role of the United Nations, including funds and programmes and specialized agencies, in particular the special roles of the United Nations Development Fund for Women (UNIFEM) and the International Research and Training Institute for the Advancement of Women (INSTRAW), within their respective mandates, and recognizes the role of the Office of the Special Adviser on Gender Issues and Advancement of Women and the Division for the Advancement of Women, as part of the United Nations system, in the promotion of gender equality and the empowerment of women and therefore in the implementation of the Platform for Action.

14. The Commission also recalls that the Bretton Woods institutions, other financial institutions and the private sector also have an important role to play in ensuring that financing for development promotes gender equality and the empowerment of women and girls.

15. The Commission recognizes the importance of non-governmental organizations, as well as other civil society actors, in advancing the implementation of the Beijing Declaration and Platform for Action.

16. The Commission is concerned that insufficient political commitment and budgetary resources pose obstacles to promoting gender equality and women’s empowerment and continue to undermine the effectiveness and sustainability of both national mechanisms for the advancement of women and women’s organizations in advocating for, implementing, supporting and monitoring the effective implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly.

17. The Commission is concerned about the growing feminization of poverty and reiterates that eradicating poverty is the greatest global challenge facing the world today, and an indispensable requirement for sustainable development, in particular for developing countries, including the least developed countries. In this regard, the Commission stresses that achieving the Millennium Development Goals and other internationally agreed development goals is a global effort that requires investing sufficient resources for gender equality and the empowerment of women and girls.

18. The Commission remains concerned about the lingering negative consequences, including for women, of structural adjustment programmes, stemming from inappropriate design and application.

19. The Commission expresses its concern about the underresourcing in the area of gender equality in the United Nations system, including at the United Nations Development Fund for Women and the International Research and Training Institute for the Advancement of Women, the Office of the Special Adviser on Gender Issues and Advancement of Women and the Division for the Advancement of Women, and stresses the need for more effective tracking of resources allocated to and spent on enhancing gender equality and the empowerment of women across the United Nations system, including on gender mainstreaming.
20. The Commission states that the global commitments for the achievement of gender equality and empowerment of women since the Fourth World Conference on Women, including through the Monterrey Consensus, have yet to be fully implemented.

21. The Commission urges Governments and/or, as appropriate, the relevant funds, programmes and specialized agencies of the United Nations system, within their respective mandates, and invites the international financial institutions, civil society, non-governmental organizations and the private sector, bearing in mind national priorities, to take the following actions:

(a) Increase the investment in gender equality and the empowerment of women and girls, taking into account the diversity of needs and circumstances of women and girls, including through mainstreaming a gender perspective in resource allocation and ensuring the necessary human, financial and material resources for specific and targeted activities to ensure gender equality at the local, national, regional and international levels, as well as through enhanced and increased international cooperation;

(n) Undertake and disseminate gender analysis of policies and programmes related to macroeconomic stability, structural adjustment, external debt problems, taxation, investments, employment, markets and all relevant sectors of the economy, and support and facilitate research in those areas, with a view to achieving the objectives of the Platform for Action and with respect to their impact on poverty, on inequality and particularly on women, as well as to assess their impact on family well-being and conditions and adjust them, as
appropriate, to promote more equitable distribution of productive assets, wealth, opportunities, income and services;

(q) Urge developed countries that have not yet done so, in accordance with their commitments, to make concrete efforts towards meeting the target of 0.7 per cent of their gross national product for official development assistance to developing countries and 0.15 to 0.20 per cent of their gross national product for official development assistance to least developed countries, and encourage developing countries to build on the progress achieved in ensuring that official development assistance is used effectively to help meet development goals and targets and, inter alia, to assist them in achieving gender equality and the empowerment of women;

(r) Ensure the effective and equitable participation of developing countries in the formulation of financial standards and codes, with a view to achieving the promotion of gender equality and the empowerment of women;

of women in national, regional and international trade decision-making structures and processes;
