

Voluntary National Report to UNFF

Voluntary National Report on progress towards the implementation of the UN Strategic Plan for Forests 2017–2030, the UN Forest Instrument and Voluntary National Contributions

Thank you for taking the time to complete the voluntary national report to the UN Forum on Forests (UNFF). Before you start, please take note of the following important information:

1. The Economic and Social Council, in its resolution 2022/17, requested the UNFF secretariat to amend the format for voluntary national reporting to the Forum, taking into account the suggestions and proposals received from members of the Forum, and conduct a pilot phase for the use of the refined format. In the same resolution, the Council invited the Forum to consider establishing an advisory group on reporting. It further requested that the secretariat explore options for establishing an online reporting platform for the Forum, recognizing the need for streamlined reporting and minimizing the reporting burden, including the challenges faced by developing countries.
 2. In fulfilling this mandate, the UNFF Secretariat has amended the format, taking into account the suggestions and proposals received from Members of the Forum and in consultation with the advisory group on reporting. The secretariat has also established an online reporting platform for the submission of voluntary national reports to the Forum.
 3. The amended format is structured around the Global Forest Goals and targets of the UN Strategic Plan for Forests 2017–2030 (UNSPF) and builds on the previous format that was used for reporting to the UNFF15.
 4. The amended format consists of twelve sections, each with several questions:
 1. General information
 2. Progress toward Global Forest Goal 1 and associated targets
 3. Progress toward Global Forest Goal 2 and associated targets
 4. Progress toward Global Forest Goal 3 and associated targets
 5. Progress toward Global Forest Goal 4 and associated targets
 6. Progress toward Global Forest Goal 5 and associated targets
 7. Progress toward Global Forest Goal 6 and associated targets
 8. Self-assessment of progress toward the Global Forest Goals and targets
 9. Voluntary National Contributions
 10. Other questions: Gender equality
 11. Other questions: International Day of Forests
 12. Success stories
- To download a PDF file of the amended voluntary report format, click here [English](#) | [Spanish](#) | [French](#)
5. In view of the cross-cutting nature of issues relating to forests and sustainable forest management, you are kindly invited to consult experts from relevant national ministries, the national focal points for the FAO Global Forest Resources Assessments (FRA), Rio Conventions, other member organizations of the CPF, criteria and indicators processes, and relevant stakeholders, where applicable. Only information that is not currently provided to the member organizations of the Collaborative Partnership on Forests (CPF), or that is not available in other international databases, is requested.
 6. In completing the national report, you may include actions by the Government, as well as the private sector, communities, civil society, or other stakeholders. The year 2020 is used as a baseline, so please include all actions taken since this date. Where applicable, please indicate the source of information, or provide a weblink as reference.
 7. All terms used in this amended format are consistent with terms and definitions used by the FAO Forest Resources Assessment.
 8. Please refer to the Explanatory Notes ([English](#) | [Spanish](#) | [French](#)) for more in-depth guidance when completing the national report. Other helpful resources include:
[Global Forest Goals and targets \(E/RES/2017/4\)](#)
[Sustainable Development Goals and targets \(A/RES/70/1\)](#)
 9. The deadline for submission of the national reports to the UNFF secretariat is 30 June 2025.

Instructions for using the online reporting platform

1. A dedicated link has been provided to the main UNFF national focal point from each country to complete their national report. You may share the link with other national officials, experts from your own country and other relevant departments to collaborate on a single national report. To avoid accidentally deleting or overwriting completed sections of the report, please ensure no two people are working on the same section of the format at the same time. Please do not share the dedicated link with anyone not involved in completing the UNFF national report for your country.
2. The reporting format is available in English, Spanish and French. Please select the language using the menu located in the top right corner of the page.
3. You are given the flexibility to pause and resume completion of the national report. Your responses will be automatically saved, and you may return to the report at any time before the deadline for submission. To return to the report, please click on the link in the original email. If you are working with a weak internet signal, you may want to connect using an Ethernet cable instead of Wi-Fi to ensure a more stable connection.
4. You are invited to use the Section Navigator to move between sections of the survey. Click on the 'Answer' button next to each Section to navigate to the questions in that Section. Once inside the section, use the 'Save and continue' button to proceed within the section and the 'Back' button to return to previous questions.
5. By clicking 'Review and Download' in the Section Navigator, you will be able to download a PDF copy of your responses. After download, you can return to the questions to amend your answers, if necessary.
6. Prior to submission, you will be prompted to upload a cover letter conveying this as the official national report for your country. This step is mandatory. The cover letter shall include an official letterhead with the full name of country, ministry, and/or institution, mail and email address, phone number and the signature of an authorized senior national official. The cover letter size should not exceed 2MB.
7. After submission, you will receive a confirmation email and a PDF copy of the national report.
8. In case of any questions or technical issues, please reach out to Ms. Nadine Souto (nadine.souto@un.org) and Mr. Tomasz Juszcak (juszcakt@un.org) from the UNFF secretariat.

2. Progress toward Global Forest Goal 1 and associated targets

Global Forest Goal 1: Reverse the loss of forest cover worldwide through sustainable forest management, including protection, restoration, afforestation and reforestation, and increase efforts to prevent forest degradation and contribute to the global effort of addressing climate change

Target 1.1: Forest area is increased by 3 per cent worldwide

Target 1.2: The world's forest carbon stocks are maintained or enhanced

Target 1.3: By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally

Target 1.4: The resilience and adaptive capacity of all types of forests to natural disasters and the impact of climate change is significantly strengthened worldwide

Goal 1 and its targets support and contribute to the achievement of, among other things, targets 6.6, 12.2, 13.1, 13.3, 14.2, 15.1–15.4 and 15.8 of the Sustainable Development Goals and are supported by paragraphs 6 (o) and 7 (d) and (e) of the United Nations forest instrument.

Target 1.1: Forest area is increased by 3 per cent worldwide

5. Since 2020, what actions have been taken in your country to advance or contribute to the achievement of target 1.1? Please provide titles and briefly describe up to three actions per target, and the results to date. You may also indicate additional GFG and SDG targets supported by each action. Where possible, please provide a weblink to refer readers to more information about the action.

Medida (título corto)

Implementación Estrategia Nacional de Cambio Climático y Recursos Vegetacionales (ENCCRV)

Descripción breve de la medida:

La Estrategia Nacional de Cambio Climático y Recursos Vegetacionales (ENCCRV) es un instrumento de política pública fundamental para cumplir los compromisos asumidos por Chile en materia de cambio climático, desertificación, degradación de las tierras y sequía. El documento reúne un conjunto de actividades y medidas de acción que conforman la base técnica y operativa para cumplir los objetivos y metas propuestas.

Principales resultados alcanzados:

Resultados de la Medida de Acción MT4: 2.176 ha al 2023

Esta medida también contribuye a las siguientes metas de los Objetivos Forestales Mundiales:

1.2
1.3

Esta medida también contribuye a las siguientes metas de los Objetivos de Desarrollo Sostenible:

6.6

3. Progress toward Global Forest Goal 2 and associated targets

Global Forest Goal 2: Enhance forest-based economic, social and environmental benefits, including by improving the livelihoods of forest-dependent people

Target 2.1: Extreme poverty for all forest-dependent people is eradicated

Target 2.2: Increase the access of small-scale forest enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets

Target 2.3: The contribution of forests and trees to food security is significantly increased

Target 2.4: The contribution of forest industry, other forest-based enterprises and forest ecosystem services to social, economic and environmental development, among other things, is significantly increased

Target 2.5: The contribution of all types of forests to biodiversity conservation and climate change mitigation and adaptation is enhanced, taking into account the mandates and ongoing work of relevant conventions and instruments

Goal 2 and its targets support and contribute to the achievement of, among other things, targets 1.1, 1.4, 2.4, 4.4, 5.a, 6.6, 8.3, 9.3, 12.2, 12.5, 15.6 and 15.c of the Sustainable Development Goals, and are supported by paragraphs 6 (d)–(f), (h), (j), (p), (q), (t)–(v) and (y) and 7 (k) of the United Nations forest instrument.

Iniciativas de bosques manejados bajo planes de ordenación forestal.

Brief description of the action:

Se consideran como bosques sometidos a planes de gestión forestal a largo plazo a aquellas superficies incluidas dentro de Planes de Ordenación Forestal. Estos Planes son un conjunto de intervenciones silviculturales que, organizadas espacial y temporalmente, persiguen una estructuración tal del bosque que permite un rendimiento sostenido, sin afectar negativamente su productividad, ni de manera significativa las funciones ambientales del mismo, conforme a las prescripciones técnicas contenidas en un plan de manejo forestal. Al instrumento de gestión del bosque que emplea este concepto se le denomina Plan de Manejo bajo criterio de Ordenación Forestal (Ley 20.283 sobre Recuperación del Bosque Nativo y Fomento Forestal).

Main results achieved for the action:

Áreas de bosques con planes de gestión a largo plazo (Ordenación Forestal) equivale a 21.380 hectáreas.

Global Forest Goal 3 Challenges

19. What are the main challenges in achieving Goal 3 in your country?

Please limit your answer to 250 words.

Aumentar la superficie de bosques privados y publico con instrumento de regulación vigentes y en funcionamiento(Planes de manejo). De la misma forma, se requiere conectar el aporte económico que proveen los bosques a través de los servicios ecosistémicos con la percepción de bienestar y satisfacción de las comunidades locales e indígenas. 5. Progress toward Global Forest Goal 4 and associated targets

Global Forest Goal 4: Mobilize significantly increased, new and additional financial resources from all sources for the implementation of sustainable forest management and strengthen scientific and technical cooperation and partnerships

Target 4.1: Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation

Target 4.2: Forest-related financing from all sources at all levels, including public (national, bilateral, multilateral and triangular), private and philanthropic financing, is significantly increased

Target 4.3: North-South, South-South, North-North and triangular cooperation and public-private partnerships on science, technology and innovation in the forest sector are significantly enhanced and increased

Target 4.4: The number of countries that have developed and implemented forest financing strategies and have access to financing from all sources is significantly increased

Target 4.5: The collection, availability and accessibility of forest-related information is improved through, for example, multidisciplinary scientific assessments

Goal 4 and its targets support and contribute to the achievement of, among other things, targets 12.a, 15.7, 15.a, 15.b, 17.1–17.3, 17.6, 17.7 and 17.16–17.19 of the Sustainable Development Goals, and are supported by paragraphs 6 (h), (i), (m), (r) and (s) and 7 (a)–(c) and (l)–(q) of the United Nations forest instrument.

Target 4.1: Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation

20. Since 2020, what actions have been taken in your country to advance or contribute to the achievement of target 4.1? Puesta en marcha de la Ley 21.488 sobre sustracción de madera

Brief description of the action:

Publicación en el año 2022 y entrada en vigencia en 2023 (posterior a la publicación de su reglamento) de Ley 21.488 sobre sustracción de madera, que Modifica el Código Penal y el Código Procesal Penal, para tipificar el delito de sustracción de madera y otros relacionados, y habilitar el uso de técnicas especiales de investigación para su persecución.

Main results achieved for the action:

Como principal resultado, a partir de la entrada en vigencia de esta ley en el año 2023, durante el año 2024 se realizó un total de 292 actividades de fiscalización en el control al transporte y/o acopio de troncos y trozas de especies no nativas. Esto equivale a un 6% del total de actividades de fiscalización realizadas a nivel nacional. Sin embargo, al comparar este valor con el total de actividades realizadas sobre el control de productos primarios del bosque nativo (Ley 20.283) que corresponde a 312 para el mismo año, el porcentaje aumenta a un 48,3%. Además, la ejecución de estas actividades de fiscalización por sustracción de madera, durante el año 2024 contribuyeron a potenciar las actividades de control al transporte y acopio de productos primarios de bosque nativo en un 27,3% respecto de la media, para el período 2020-2023.

Global Forest Goal 5 Challenges

**46. What are the main challenges in achieving Goal 5 in your country?
Please limit your answer to 250 words.**

Si bien Chile reconoce la importancia estratégica de promover marcos de gobernanza sólidos para avanzar hacia una gestión forestal sostenible, en concordancia con el Instrumento de las Naciones Unidas sobre los Bosques según lo indicado en la Estrategia para la Implementación de la Agenda 2030, se identifican algunos desafíos estructurales como: i) falta de una integración plena y territorialmente homogénea de los bosques en los instrumentos de planificación territorial (Ej. Planes Reguladores Comunales y Planes de Ordenamiento Territorial, entre otros), ii) fortalecer la coordinación intersectorial e interinstitucional, iii) fortalecimiento de capacidades técnicas, financieras e institucionales a nivel subnacional, iv) hacer seguimiento a las acciones para el abordaje de las causales de degradación y/o deforestación de los ecosistemas boscosos y, v) avanzar hacia el reconocimiento pleno de los derechos de los pueblos indígenas incluidos sus territorios, tradiciones y conocimientos como parte esencial de la gestión sostenible de los bosques.

7. Progress toward Global Forest Goal 6 and associated targets

Global Forest Goal 6: Enhance cooperation, coordination, coherence and synergies on forest-related issues at all levels, including within the United Nations system and across member organizations of the Collaborative Partnership on Forests, as well as across sectors and relevant stakeholders

Note: targets 6.1 and 6.2 are not included in this section of the reporting format as they address actions taken by the international community, and not those taken at the national level

Target 6.3: Cross-sectoral coordination and cooperation to promote sustainable forest management and halt deforestation and forest degradation are significantly enhanced at all levels

Target 6.4: A greater common understanding of the concept of sustainable forest management is achieved and an associated set of indicators is identified

Target 6.5: The input and involvement of major groups and other relevant stakeholders in the implementation of the strategic plan and in the work of the Forum, including intersessional work, is strengthened

Goal 6 and its targets support and contribute to the achievement of, among other things, target 17.14 of the Sustainable Development Goals and are supported by paragraphs 6 (b), (c), (g), (m) and (w) and 7 (r) and (s) of the United Nations forest instrument.

Target 6.3: Cross-sectoral coordination and cooperation to promote sustainable forest management and halt deforestation and forest degradation are significantly enhanced at all levels
