

February 28th, 2025

Excellency,

We would like to thank all delegations for their participation in the second informal consultation of the intergovernmental process to identify the terms of reference and modalities for the establishment and functioning of the Independent International Scientific Panel on Artificial Intelligence (AI) and the Global Dialogue on AI Governance.

Please find enclosed the elements paper, which has been prepared based on the inputs and written contributions provided by Member States in the consultations on January 17th and February 19th and considering the consultation on February 18th with stakeholders. This document synthesizes the main points of convergence we have identified in the statements and written contributions on the Scientific Panel and the Global Dialogue.

This paper does not include all elements that will be reflected in the zero draft, but rather those where broad convergence has been observed. It should not be interpreted as a proposal for negotiated language but as a structured outline of converging elements ahead of the drafting process.

To further advance this process, a third informal consultation will take place on March 14th in the ECOSOC Chamber from 10 a.m. to 1 p.m. to hear the views of Member States on this elements paper.

Delegations are also invited to comment on other aspects not mentioned in the paper.

Priority will be given to speakers representing groups and coalitions. Interventions will be limited to five (5) minutes for statements on behalf of group, and three (3) minutes to Member States.

We look forward to your continued engagement and to welcoming you to our next round of informal consultations on March 14th at the ECOSOC Chamber.

Please accept, Excellency, the assurances of our highest consideration.
