## OVERVIEW

The goal of the MDG Advocate-led Innovation Forum is to catalyze connections to accelerate progress on the MDGs. Leaders in four key fields – education, health, food security and sustainable growth – will take part.

The Secretary-General's Advocates, with their unique roles as luminaries in their respective fields, will elaborate on four initiatives that have the potential for large scale impact on the MDGs.

## STRUCTURE

The Forum will showcase four high-impact projects that are meant to help advance traditional philanthropy in the direction of smart targeted investments and creative partnerships, with a specific goal of garnering new commitments to aid in their implementation.

### *Sample topics and projects include*

- + One Million Community Healthcare Workers,
- + Educate a Child Initiative,
- + Capacity Building of Ministries,
- + Innovations and technological advancements in Education, Health, Job Creation, and Youth Empowerment.

Other MDG Advocates and industry leaders will provide constructive feedback on the presentations. This format will enable participants to interact with speakers and explore collaboration.
