

If we are to achieve worldwide results in improving diets and nutrition for all, with positive impacts on the environment and on socio-economic development, action at country level is crucial.

The United Nations Decade of Action on Nutrition offers a unique opportunity for countries to drive concrete actions at national level, by developing S.M.A.R.T. commitments.

WHAT IS A S.M.A.R.T. COMMITMENT?

Specific

Refers to a specific action and indicates who is responsible for implementing it.

Measurable

Includes an indicator to enable measuring progress and tracking its achievement.

Achievable

Refers to a realistic context based on availability of human and financial resources and level of progress achieved in the past.

Relevant

Reflects a country's situation, national priorities and the challenges it faces.

Time-bound

The key milestone is to be met within a realistic time frame for achievement.
