

United Nations  
Economic Commission for Africa

# **IPT and its applications in shaping national development plans**

Eric Akobeng

Chief, Development Planning Section  
Macroeconomics and Governance Division (MGD)  
Economic Commission for Africa

**SIDS National Focal Point meeting**

24 November 2021

## Introduction

African member states have made several continental and global commitments.

- Millennium Development Goals.
- 2030 Agenda for Sustainable Development
- Agenda 2063
- Small Island Developing States Accelerated Modalities of Action
- The Paris Agreement (Climate Change)
- The Sendai Framework on Disaster Risk Reduction
- Others

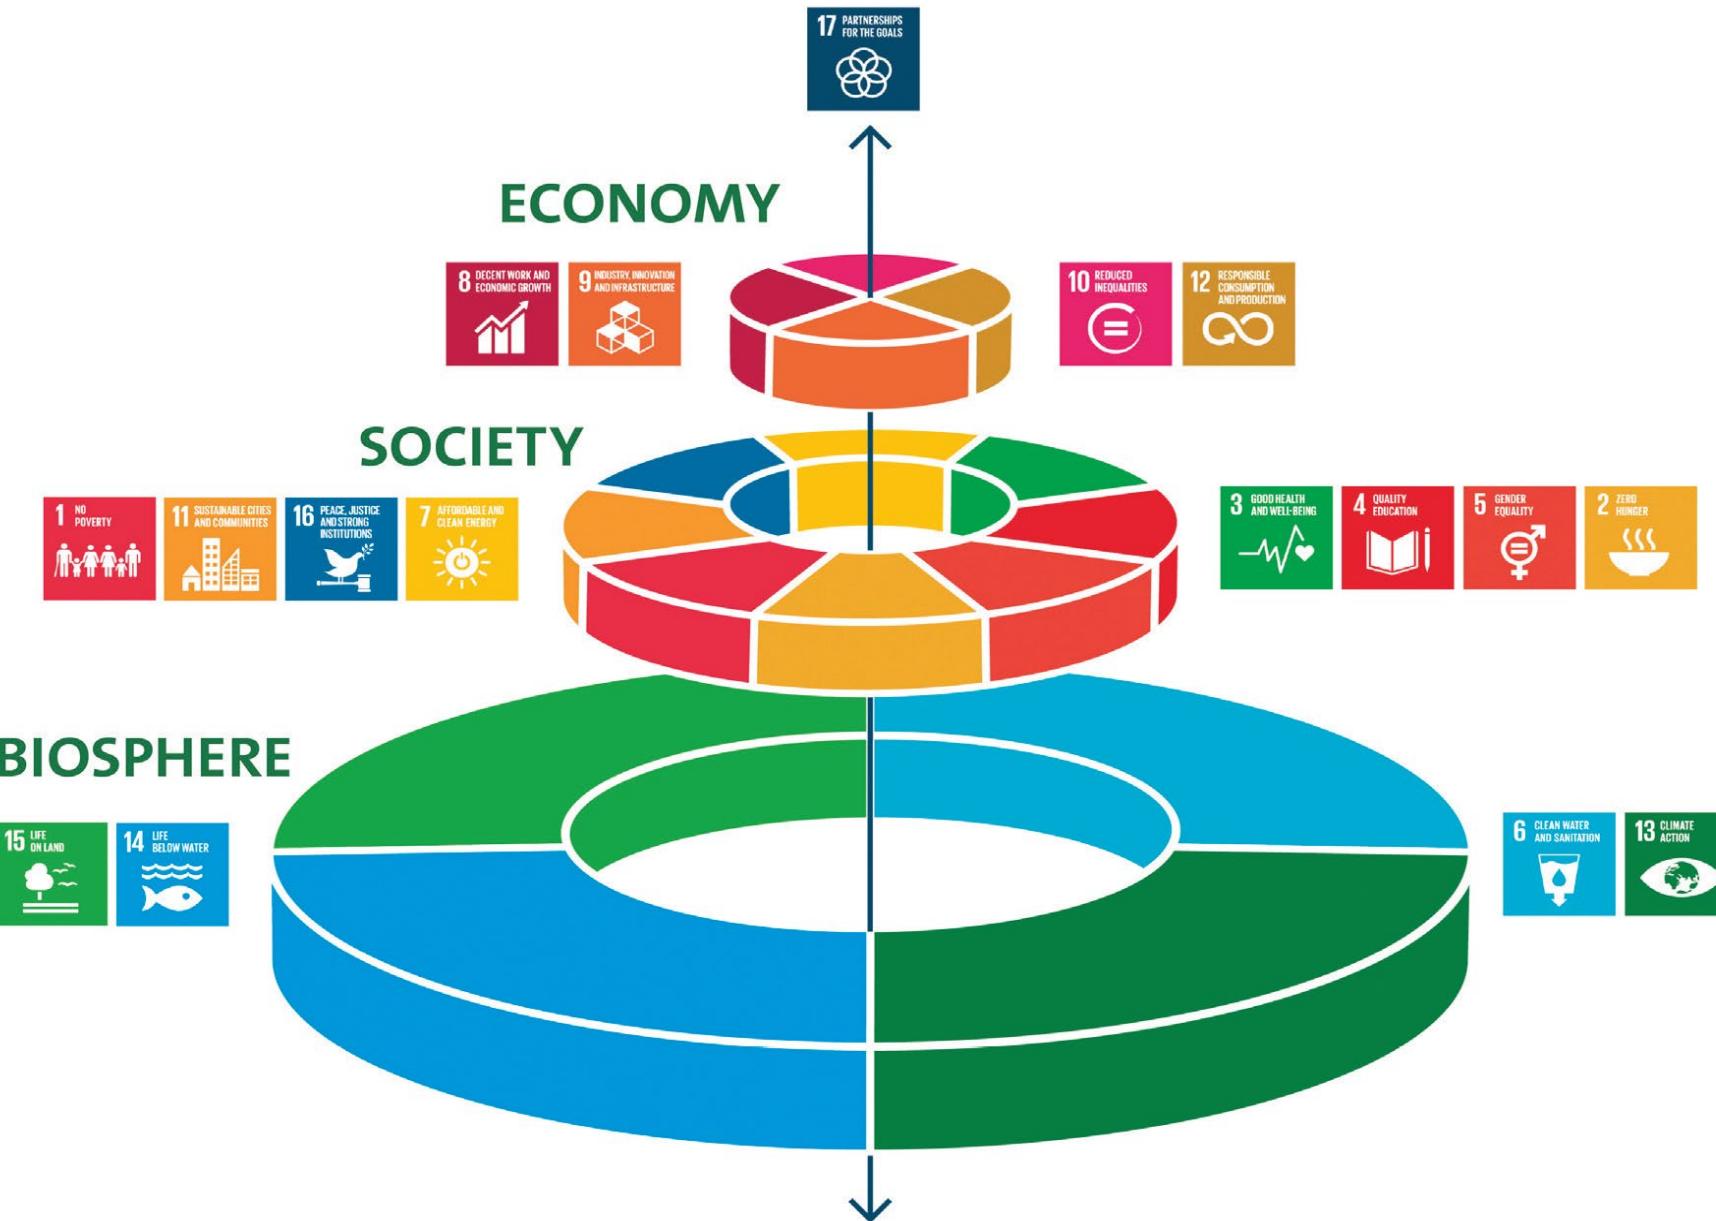

## Development Planning challenges

Leaving no  
one behind

# Sustainable Development Frameworks

## Sustainable development

- Development Plans need to be:
  - Resilient
  - Inclusive
  - Coherent

- Traditional planning approaches and tools are inadequate.
- Agendas 2030 and 2063 are in line with the three features.
- The demand for new planning approaches and tools that take into account continental and global agreements.

- ECA has developed a mainstreaming toolkit, known as **Integrated Planning and Reporting Toolkit (IPRT)**.
- The 2016 **Conference of Ministers** requested ECA & AUC to develop a tool that can help align development agendas at national and subnational levels.

# IPRT Workshops

- Facilitates the **integration** of A2030 and A2063 at goal, target and indicator levels (**Horizontal alignment**).
- **Allows** for assessing the alignment of NDPs with both agendas (**Vertical alignment**).
- Evaluates the **degree of alignment** by **sector**.

- **Generates reports.**
- **Tracks performance** of NDPs and identifies gaps between actual performance and targets.
- Provides visualization of the alignment process.
- **Identifies reasons for non-integration**; a basis for providing support.

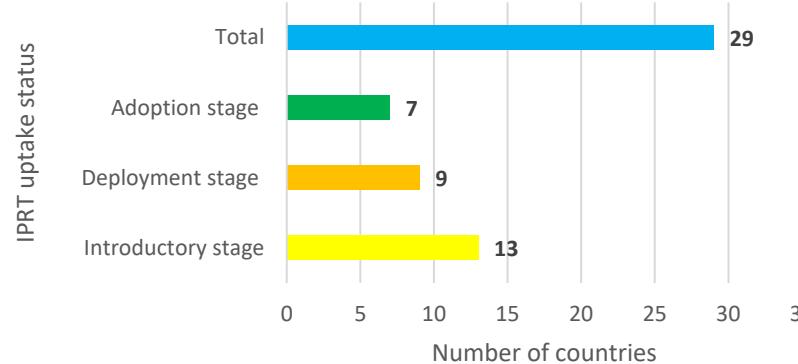

## Trickle-down effects of IPRT

- Helps to strengthen the capacity of the National Development Planning Teams.
- Helps to integrate National Development Plans into sub-national development plans.
- Improves the quality of NDPs indicators.
- Provides understanding of the complementary relationships between Agendas 2030 and 2063.

- Improves **data collection** on governance and economic indicators.
- Improves **M&E arrangements**.
- Improves **guidelines** issued by the National Development Planning Authorities.

## Integrated Planning &amp; Reporting Toolkit

## IPRT uptake by country (2021)

IPRT exposure  
and training

Mainstreaming

# Snapshot of AFRICA for 2019

## Comparing IPRT and the existing mainstreaming

Attributes	IPRT	RIA (Rapid integrated Policy Assessment)	MAPS (Mainstreaming, Acceleration and Policy Support)
Automated	Yes	No	No
Tracks Performance	Yes	No	No
Integrates A2030	Yes	Yes	Yes
Integrates A2063	Yes	No	No
Provides intelligent Dashboards/Data Visualization	Yes	No	No
Generates reports	Yes	No	No

## ECA's IPRT

## Remarks

- The toolkit is **flexible**.
- Allows integration of **multiple** development agendas into NDPs.
- **Tracks** progress towards achieving A2030 and A2063.
- For IPRT, you find **ALL-IN-ONE** (Track SAMOA **PATHWAY**)

# The IPRT

**DECADE OF >>> ACTION**

**Thank you!**
