

THE PRESIDENT  
OF THE  
GENERAL ASSEMBLY

13 September 2016

Excellency,

With reference to my letter dated 27 November 2015 and pursuant to paragraph 24 of General Assembly resolution 69/321, on 16 March 2016, I appointed the Permanent Representative of Colombia, H.E. Ms. Maria Emma Mejia Velez, to find agreement on a proposal, in consultation with member states, aimed at strategically aligning the agenda of future sessions of the General Assembly with the 2030 Agenda, including the Sustainable Development Goals. This process should serve to enhance synergies and coherence across the work of the plenary, main committees and ECOSOC, and to reduce overlap where it is found to exist.

Given the scope of this work and with a view to ensure regional representation, four members of the General Committee, who also chaired some of the most affected bodies, were asked to support the Permanent Representative of Colombia in this endeavour without precluding the engagement of the remaining Committees. These were the Permanent Representative of Korea, H.E. Mr. Oh Joon (President of ECOSOC); the Permanent Representative of Morocco, H.E. Mr. Omar Hilale (Chair of the Third Committee); the Permanent Representative of the Netherlands, H.E. Mr. Karel van Oosterom (Chair of the First Committee) and the Permanent Representative of Slovenia, H.E. Mr. Andrej Logar (Chair of Second Committee).

In this regard, I am honored to share with Member States a letter from the Permanent Representative of Colombia, H.E. Ms. Maria Emma Mejia Velez, reporting the work of the group, the findings and recommendations for further work.

It is my intention to transmit this letter together with the report of group, as per my letter dated 21 July, to the President of the 71<sup>st</sup> session of the General Assembly, H.E. Mr. Peter Thomson, for his consideration.

I would also take this opportunity to extend my sincere appreciation, and that of my Office, to the facilitator and the other Permanent Representatives in the group, as well as their experts, for their hard work on this process.

Please accept, Excellency, the assurances of my highest considerations.

A handwritten signature in dark ink, appearing to read 'Mogens Lykketoft', written in a cursive style.

Mogens Lykketoft

To all Permanent Representatives  
and Permanent Observers to the United Nations  
New York

**Permanent Mission of Colombia to the United Nations**

No. 1602-E

New York, September 9, 2016

Excellency,

I have the honour to refer to your letter dated March 16 in which you appointed me to work on strategically aligning the agenda of future sessions of the General Assembly with the 2030 Agenda, including the SDGs. You noted that the process should serve to enhance synergies and coherence across the work of the plenary, main committees and ECOSOC, and to reduce overlap where it is found to exist.

Together with HE Ambassador Oh Joon, Permanent Representative of the Republic of Korea, HE Ambassador Omar Hilale, Permanent Representative of Morocco, HE Ambassador Karel van Oosterom, Permanent Representative of the Netherlands, HE Ambassador Andrej Logar, Permanent Representative of Slovenia, and our teams, we worked tirelessly to fulfill this mandate.

To His Excellency  
**Mr. MOGENS LYKKETOFT**  
President of the General Assembly  
United Nations  
New York.-

## **Permanent Mission of Colombia to the United Nations**

We began our work trying to develop a methodology to perform a task for which there was no past record. I would like to acknowledge the support we got from DESA in preparing an initial draft of the table. We analyzed which GA and ECOSOC agenda items covered each target; the findings and options for discussion resulting from that analysis make up our three part Report on Strategic Alignment of future sessions of the General Assembly with the 2030 Agenda for Sustainable Development.

In Part 1, Considerations on Strategic Alignment, we found that there are SDGs whose targets are covered in the GA and ECOSOC agendas, SDGs whose targets remain largely uncovered, SDGs whose targets have limited coverage and SDGs covered elsewhere in the UN system. In Part 2, Considerations on Overlap, we advanced in establishing some objective criteria to assess and address overlaps and acknowledge there is need for an in depth analysis on the matter. Part 3, Considerations on Enhancing Synergy and Coherence, we present five options for discussions thereto.

This is a first step in the process of aligning the Agenda of the GA with the 2030 Agenda to ensure that it is implemented in the most efficient way possible. The work that we have done is a beginning: it is the first time that the SDGs are mapped against the General Assembly Agenda. Clearly further work needs to be done.

## **Permanent Mission of Colombia to the United Nations**

As you are aware, the timing of our work was affected by the processes of the follow up and review of the 2030 Agenda and the Second Committee revitalization that should have preceded ours but took longer than expected, not allowing for proper consultations on a proposal to take place.

Following your letter of the 21<sup>st</sup> July sending the report to Member States, we held an informal meeting on the 25<sup>th</sup> of July to gather views and proposals on the report.

A large group of countries expressed the view that it is imperative that the work in the General Assembly and ECOSOC is coherently aligned with the SDGs. It considers that the SDGs and targets should cut across the work of the General Assembly and ECOSOC and its functional commissions. Where it is deemed appropriate and necessary, agenda items should be created. On overlaps, the group called to take care not to eliminate important substance from existing agenda items and to be focused towards enhancing synergies to ensure coherence.

Another group of countries highlighted the importance of continually reviewing the agendas of the General Assembly and the ECOSOC in order to streamline them. They also considered that it should not be assumed that all SDG targets should be covered by these two organs.

## **Permanent Mission of Colombia to the United Nations**

Two concrete ideas rose during the meeting and further informal discussions: the first is to do a table that sees whether the GA agenda items are aligned to the 2030 Agenda; all GA items would be listed and it would be analyzed whether they are related to the 2030 Agenda. The second is to entrust an independent think tank or foundation with the task of studying overlaps in the agendas of the GA and ECOSOC.

A strong conclusion that I perceive is that there is urgent need for further work on the issues and on the task continuing under the next 71<sup>st</sup> Session of the GA. I am also glad to note that the Resolution on the Revitalization of the Work of the General Assembly recalls the need to enhance synergies and coherence and reduce overlap where it is found to exist in the GA, ECOSOC and the HLPF and calls for the continuation of such efforts in the 71<sup>st</sup> session of the GA. It also took note of the report we prepared.

Our aim as Member States is to successfully implement all the SDGs and the 2030 Sustainable Development Agenda. This requires the effective support of the United Nations and an optimal use of all resources of the UN system.

To reach this aim, we will need all the political will of Member States and the most positive disposition of the UN system and staff. Change is not easy, but we need to be able to adapt if we are to fulfill the commitment of implementing the

**Permanent Mission of Colombia to the United Nations**

comprehensive, far-reaching and people-centred set of universal and transformative Goals and targets that our Heads of States and Government undertook.

Together with the team of ambassadors that have worked with me, we stand ready to support all future efforts towards successfully implementing a transformative indivisible tridimensional 2030 Agenda.

I avail myself of this opportunity to renew to your Excellency the assurances of my highest consideration.

  
MARIA EMMA MEJÍA

Ambassador, Permanent Representative

Annex: the report of the group.

# **Report on Strategic Alignment of future sessions of the General Assembly with the 2030 Agenda for Sustainable Development**

## **Introduction**

The mandate by the PGA was to find agreement on a proposal, in consultation with member states, aimed at strategically aligning the agenda of future sessions of the General Assembly with the 2030 Agenda, including the SDGs. The process should serve to enhance synergies and coherence across the work of the plenary, main committees and ECOSOC, and to reduce overlap where it is found to exist. Given the scope of the process, the PGA appointed the Permanent Representative of Colombia to take forward this process, with the support of four members of the General Committee, the Permanent Representatives of Morocco, the Netherlands, Slovenia and the Republic of Korea.

To commence the work, the Secretariat was requested to prepare an in depth mapping on how the substance from each target is addressed in the Agenda of the General Assembly, its Committees and the ECOSOC and its Commissions, going beyond the mere titles of agenda items.

The group of Missions working on this exercise added and eliminated many references to the initial table, analyzed whether each target was covered, partially covered or not covered and accordingly made options for further discussion. The mapping assessment is a background document based on which findings are reported and options for discussion are made. The mapping does not have any status; it simply provides a snapshot for a specific point in time.

The findings and options for discussion contained herewith can be viewed as a first step in the process of strategically aligning the Agendas of the GA and the ECOSOC with the Agenda 2030 for Sustainable Development. This report presents the work of the group, but the observations and options presented do not necessarily reflect the national positions of the Member States engaged in this exercise.

## **CONSIDERATIONS ON STRATEGIC ALIGNMENT**

The findings of the mapping assessment can be divided into four categories:

1. The majority of SDGs contain
  - a. Targets that are covered in the GA and/or ECOSOC agendas
  - b. Targets that can be covered by making use of existing Agenda Items
2. SDGs whose targets remain largely uncovered under the GA and ECOSOC agendas: SDG 6 and SDG 12

### Options for discussion

- Inscribe new subitems under the GA Agenda or the ECOSOC System agendas that would address the targets under these two goals

- Develop resolutions on the issues of these SDGs under broader items in the GA Agenda or the ECOSOC
  - Consider whether there is an entity in the UN system better placed to address the issues relevant to these two SDGs, instead of the GA and the ECOSOC
  - Consider whether there is the need for the UN to address these issues or if they are better addressed through international cooperation, other multilateral initiatives or national efforts
3. SDGs whose targets have limited coverage under the GA and ECOSOC agendas:
- a. SDG 9 – the coverage of most targets is very limited
  - b. SDG 10 – although targets are covered, the coverage in general seems quite scattered
  - c. SDG 16 – there is limited coverage in governance and legal aspects

#### Options for discussion

- Inscribe a new subitem under the GA Agenda or ECOSOC system agendas
  - Address targets in a more relevant and inclusive manner in the items that partially deal with the issues or add new content to Agenda Items related to the issues
  - Streamline the issues that are scattered (SDG 10)
  - Consider whether there is an entity in the UN system better placed to address the issues relevant to these SDGs, instead of the GA and the ECOSOC
  - Consider whether there is the need for the UN to address these issues further or if they are better addressed through international cooperation, other multilateral initiatives or national efforts
4. SDGs covered elsewhere in the UN system, under several Conventions<sup>1</sup>: SDG 13 and SDG 15

#### **Additional consideration**

The Means of Implementation targets are addressed through Agenda Item 19 of the GA (Follow-up to and implementation of the outcomes of the International Conferences on Financing for Development) and in the Forum on Financing for Development. These are mechanisms and instruments that are starting their work and that would merit an assessment in some time to see how meaningfully they are covering the targets and whether potential overlaps may arise.

#### **CONSIDERATIONS ON OVERLAP**

Apart from working towards ensuring that all SDGs and targets are well covered, there is need to work on identifying and addressing possible overlaps. The timeframe given for this process was insufficient to produce an in depth analysis of possible overlaps.

---

<sup>1</sup> UNFCCC, CBD, CITES and UNCCD

### Options for discussion on criteria and a way forward for the consideration of overlaps

In order to do an objective analysis of possible overlaps, there is need to develop criteria as to how to assess overlaps and to address them with a coherent and consistent approach.

1. There is no existing agreed methodology to work on overlapping, nor is there a successful precedent in reducing overlaps to take lessons from. Furthermore, informal consultations with Member States did not yield new perspectives.
2. Apart from analyzing the overlapping, it is important to see that there are no contradictions or inconsistencies in the way an issue is dealt with by different entities, nor in the recommendations that stem from it.
3. The mapping assessment on coverage of the SDGs does not provide a comprehensive perspective on potential overlaps. Moreover, this assessment did not cover issues that are not present in the 2030 Agenda.
4. The assessment of overlap should go beyond the titles of agenda items and examine the content of the resolutions.
5. The mapping assessment can shed light as to which targets are dealt with in several Agenda Items and a further analysis on possible overlaps could take into account those targets covered by a large number of agenda items.
6. The analysis should bear in mind the different perspectives from which Second, Third and other Committees undertake their work.
7. It would also be important to evaluate possible overlaps between the GA and the ECOSOC, analyzing items according to the mandates of these two organs.
8. On addressing overlaps, merging or elimination are options to be explored, while ensuring that no important substance is lost. Given the nature of the 2030 Agenda, it would be important to prioritize those agenda items that approach an issue from a more integrated, inclusive perspective.
9. Consider what would be the best way to prepare an in depth initial analysis on possible overlaps (e.g. request the UN Secretariat, designate a representative group of Member States to prepare a draft analysis, among others)

### **CONSIDERATIONS ON ENHANCING SYNERGY AND COHERENCE**

1. There should be work on enhancing the synergy between the work of the Second and Third Committees, as well as other concerned Committees.

#### Option for discussion

There is the possibility of requesting joint reports for similar issues covered under more than one Committee, mainly Second and Third, in order to increase awareness to the different approaches between the Committees. There is need to advance in the consistency in the terminology and in the mutual reinforcement of the approaches.

2. Every committee could have a process of review of its Agenda in light of the 2030 Agenda, while ensuring synergy and coherence across the Committees.

3. There is also need to increase the synergies between the different organs and their functions and responsibilities in relation to the 2030 Agenda.

Option for discussion

It would be worth to take a look at the relationship between the GA and ECOSOC to further differentiate the functions that each organ is supposed to perform.

4. Although it is beyond the mandate of this process, a closer look at strengthening the linkages and coherence within the UN system in the treatment of the 2030 Agenda would be relevant.

Option for discussion

There is the possibility of inviting Specialized Agencies of the system and Secretariats of Conventions, that do not already do so, to make presentations to the relevant committees of the GA on the work that they are doing to implement the 2030 Agenda. During our mapping exercise we identified WH Assembly, WHO, UNESCO, ILO, UN WOMEN, UNEA, OCHA, WFP, WIPO, WTO, the 3 Chemical conventions of UNEA, the UN Interagency task force on the prevention and control of NCDs, amongst others. These presentations should not entitle costs as most specialized agencies have officers in NY.

5. Synergy and coherence can be further enhanced by adequately addressing the implications of the universal character of the Agenda. Its integrated and indivisible nature should be fostered, including by focusing on the interlinkages amongst the SDGs and targets, in order to avoid continued work in silos.

Our collective challenge is a coherent coverage of the 2030 agenda that enhances synergies amongst the entities of the UN system.

Agreeing on a way forward will require Member States to be sensitive to each other's views and interests in order to find a balanced approach.

## **NEXT STEPS**

The Group of Permanent Representatives, under the leadership of the Permanent Representative of Colombia, will submit this report to the President of the General Assembly with the recommendation that it is forwarded to the President of the 71<sup>st</sup> General Assembly for him to decide on further steps regarding the options for discussion and the need for further analysis.

## Annex 1: Letter from the PGA

THE PRESIDENT  
OF THE  
GENERAL ASSEMBLY

16 March, 2016

Excellency,

The General Assembly will play a key role in supporting implementation of the 2030 Agenda for Sustainable Development.

As indicated in my letter dated 27 November 2015 and pursuant to paragraph 24 of General Assembly resolution 69/321 of 11 September 2015, I have decided to appoint the Permanent Representative of Colombia, Her Excellency María Emma Mejía Vélez, to find agreement on a proposal, in consultation with member states, aimed at strategically aligning the agenda of future sessions of the General Assembly with the 2030 Agenda, including the Sustainable Development Goals. This process should serve to enhance synergies and coherence across the work of the plenary, main committees and ECOSOC, and to reduce overlap where it is found to exist.

Given the scope of this work and with a view to ensure regional representation, I have asked four members of the General Committee, who also chair some of the most affected bodies, to support the Permanent Representative of Colombia in this endeavour without precluding the engagement of the remaining Committees. These are: the Permanent Representative of Korea, His Excellency Oh Joon (President of ECOSOC); the Permanent Representative of Morocco, His Excellency Omar Hilale (Chair of the Third Committee); the Permanent Representative of the Netherlands, His Excellency Karel van Oosterom (Chair of the First Committee) and the Permanent Representative of Slovenia, His Excellency Andrej Logar (Chair of Second Committee).

Annexed is a draft timeline for the process, developed by the facilitator and four Permanent Representatives, which will ensure that the work initiated by the Chair of the Second Committee on similar issues can inform this broader endeavour, and that space will be provided for the consultation process on follow-up and review led by the Permanent Representative of Belize and the Permanent Representative of Denmark. The facilitated informal consultations will begin 1 June, 2016.

I have requested the Secretariat to support the process.

I encourage all Member States to lend their fullest support to the facilitator.

Please accept, Excellency, the assurances of my highest consideration.

Mogens Lykketoft
