Draft resolution submitted by the President of the General Assembly

Scope, modalities, format and organization of the high-level meeting **on universal health coverage**

The General Assembly,

Recognizing that through the adoption of the 2030 Agenda for Sustainable Development¹ and its Sustainable Development Goals in September 2015, Heads of State and Government made a bold commitment to achieve universal health coverage by 2030, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all,

Recalling its resolution 71/159 of 15 December 2016, entitled “Global health and foreign policy: health employment and economic growth”, which underlined the primary responsibility of Member States to accelerate the transition towards universal health coverage,

Recalling also its resolution 72/139 of 12 December 2017, entitled “Global health and foreign policy: addressing the health of the most vulnerable for an inclusive society”, in which it decided to hold a high-level meeting in 2019 on universal health coverage,

Recalling further its resolution 67/81 of 12 December 2012, entitled “Global health and foreign policy”, in which it recognized the responsibility of Governments to urgently and significantly scale up efforts to accelerate the transition towards universal access to affordable and quality health-care services and that effective and financially sustainable implementation of universal health coverage is based on a resilient and responsive health system, and reaffirming the primary responsibility of Member States to determine and promote their own paths towards achieving universal health coverage,

Recalling its resolution 72/138 of 12 December 2017, entitled “International Universal Health Coverage Day”, in which it decided to proclaim 12 December as International Universal Health Coverage Day,

Recognizing that health is a precondition for and an outcome and indicator of all three dimensions — economic, social and environmental — of sustainable development and that, despite progress made, challenges in global health, including major inequities and vulnerabilities within and among countries, regions and populations, still remain and demand persistent attention,

Emphasizing the need for the high-level meeting to complement and build on preceding and ongoing health processes and initiatives, including the high-level meeting on HIV/AIDS held in New York from 8 to 10 June 2016 and the high-level meeting on antimicrobial resistance held in New York on 21 September 2016, as well as the high-level meeting on the fight against tuberculosis and the third high-level meeting of the General Assembly on the prevention and control of non-communicable diseases, to be convened in New York on 26 and 27 September 2018, respectively,

Welcoming the convening of the Global Conference on Primary Health Care, on achieving universal health coverage and the Sustainable Development Goals, to be
