# **High-level meeting to review progress made in addressing the priorities of SIDS through the implementation of the Accelerated Modalities of Action (SAMOA) Pathway**

**27 September 2019, Trusteeship Council Chamber**  
**United Nations Headquarters**

## **Background**

The third International Conference on Small Island Developing States (SIDS) was held from 1-4 September 2014 in Apia, Samoa. The Conference resulted in the adoption of the Small Island Developing States Accelerated Modalities of Action – or [SAMOA Pathway](#) and the announcement of 300 multi-stakeholder partnerships in support of SIDS. The SAMOA Pathway was mandated for the duration of 2014 to 2024. It also established a unique intergovernmental SIDS Partnership Framework, designed to monitor progress of existing partnerships, and stimulate the launch of new, genuine and durable partnerships for the sustainable development of SIDS.

On 27 September 2019, the General Assembly will convene a one-day high level meeting to review progress made in addressing the priorities of SIDS through the implementation of the SAMOA Pathway. The high-level review will also result in a concise action oriented and inter-governmentally agreed political declaration.

The high-level review will assess progress, gaps and challenges in the implementation of the SAMOA Pathway. Bringing development partners and SIDS together, it will also assess the priorities, solutions, and lessons learnt for the way forward. It is key that the final five years of implementation seek out the strongest synergies with the 2030 Agenda for Sustainable Development, the climate agenda, and other key multilateral processes.
