THE PERMANENT MISSION OF ALGERIA  
TO THE UNITED NATIONS

14 July 2021

Excellency,

We would like to thank Member States for their active engagement at our informal consultations held on July 6 and July 7 2021 on the revised draft resolution on the review of the functioning of the Resident Coordinator system. Based upon the proposals introduced and subsequently provided in written form, we are pleased to share with you the revised draft of the resolution.

In the revised version, we have kept as the guiding principle that it should respect the mandates of resolutions 72/279 and 75/233 on the QCPR. This implies that the resolution will not re-open discussions on other agreed mandates and guidance to the United Nations development system as laid out comprehensively in these two resolutions. We remain committed to adhere to this principle and continue to count on Member States' support in this regard.

We also have the pleasure to invite you to the fourth informal consultation, which will be held at the GA Hall on July 19 2021 from 10:00 am to 1:00pm and again from 3:00 pm to 6:00 pm. In our reading of the revised draft resolution, we propose that we leave out operational paragraph 3 on the Resident Coordinator System funding model, and the related paragraphs 4 and 5, until we have concluded our reading of all other paragraphs. We sincerely hope that delegations will find the paragraphs not related to the funding model to be balanced and acceptable to all delegations, and strongly encourage delegations to show flexibility in this regard so that we can focus our time on the discussion of the funding model.

In the revised version, we present a proposal for the funding model, which is based on the inputs we have received from Member States, and which we believe adheres to the principle of generating adequate, predictable and sustainable funding for the Resident Coordinator System. We propose that the funding model, in addition to the levy and the cost-sharing arrangement, will contain both voluntary and assessed contributions. The latter will be administered through a lump-sum grant arrangement, as presented by the Controller at the technical briefing of June 24 2021, with reference to General Assembly resolution 63/263. We ask Member States to come prepared for in-depth discussion on this key pillar of the functioning of the Resident Coordinator system and look forward to hearing your views on our proposal.

Please accept, Excellency, the assurances of our highest consideration.
