Explanatory Note:

1. In accordance with paragraph 4 (*d*) of General Assembly Resolution A/RES/60/180 and Security Council Resolution S/RES/1645(2005) establishing the Peacebuilding Commission, the Secretary-General is requested to provide a list of the top ten providers of military personnel and civilian police to United Nations missions based on the average monthly contributions in the previous three calendar years.
2. The data reflected in the table above corresponds to this request with respect to the forthcoming selection process from among the top ten providers for new two-year terms of membership of the Organizational Committee of the Peacebuilding Commission starting from 1 January 2023.
3. In compiling this data, the Department of Peace Operations calculated yearly averages of military and police personnel on the basis of cumulative totals for each contributor in the qualifying year divided by twelve months. Subsequently, the cumulative total of the yearly averages for the qualifying calendar years, namely 2019, 2020 and 2021, were divided by three to provide the average contribution over three years.
