

PRESIDENT OF THE GENERAL ASSEMBLY

1 September 2023

Excellency,

In setting out my vision for the seventy-seventh session under the theme “Solutions through solidarity, sustainability and science”, I stressed the role science could play in shaping decisions on complex issues.

In this regard, and as I conclude my Presidency, I have the honour to enclose herewith a thought paper on **Science for Action in Sustainable Development**, urging the use of science to help build pathways to a sustainable future.

Please accept, Excellency, the assurances of my highest consideration.

Csaba KÖRÖSI
