I. Background

1. The programme of work for the period 2017-2020 for the second cycle of the Regular Process for Global Reporting and Assessment of the State of the Marine Environment, including Socioeconomic Aspects, developed by the Ad Hoc Working Group of the Whole during its seventh meeting held in New York from 3 to 9 August 2017 and endorsed by the General Assembly later that year, includes in the activities for 2018 the holding of a second round of regional workshops, which are to begin in 2018. The workshops are intended to support the development of the second world ocean assessment by enabling the collection of regional-level data and enabling relevant members of writing teams to meet.

2. In accordance with the guidance to the Bureau adopted by the tenth meeting of the Ad Hoc Working Group of the Whole on 1 March 2018, the Bureau has finalized Guidelines for the second round of Workshops in 2018 to Assist the Regular Process for Global Reporting and Assessment of the State of the Marine Environment, including Socioeconomic Aspects (the “Guidelines”). Pursuant to the Guidelines, workshops are organized under the auspices of the United Nations, in coordination with the secretariat of the Regular Process, represented by the Division for Ocean Affairs and the Law of the Sea, Office of Legal Affairs, United Nations (the “Division”) and with the assistance of members of the Group of Experts and Pool of Experts, as appropriate.

3. According to the Guidelines, the objectives of the workshops are to:

   (a) Support the development of the second world ocean assessment by enabling the collection of regional-level information and data for the preparation of the second world ocean assessment and to enable relevant members of writing teams for specified chapters to meet, and to interact with experts from the region in the fields covered by those chapters;

   (b) Enable the regional experts to understand better the approaches of the Regular Process and to develop their skills in integrated assessment, covering environmental, social and economic aspects;

   (c) Enable the writing teams for the chapters selected for the workshop, with the help of the Joint Coordinators and the members of the Group of Experts of the Regular Process (“the Group of Experts”) who are present, to discuss the structure of their chapter, its relationship with the other chapters of the Outline for the second world ocean assessment (“the Outline”) and responsibilities for developing the chapter text;
(d) Provide opportunities for the members of the Group of Experts present to highlight important issues within the Outline other than those of the selected chapters, in order to broaden understanding of the full range of the Regular Process;

(e) Consider what learning points / needs and resources may be relevant to the inventory of capacity-building inventory of needs and opportunities relevant for the Regular Process being compiled and maintained by the secretariat, and to the multi-stakeholder dialogue (case studies of good practices) and capacity-building partnership event, to be held in early 2019.

(f) Consider what capacity-building steps might be taken, both at global and regional levels, in relation to the issues covered by the selected chapters.
