

List of chapters in Draft 2 of the third World Ocean Assessment

Chapter	Start page
Section 1: Overall summary	1
Section 2: Approach to the assessment	36
Section 3: A global overview of ocean governance	46
Section 4: Change since the second World Ocean Assessment (introduction)	85
Section 4 Chapter 1: Drivers	86
Section 4 Chapter 2: Scientific understanding	103
Section 4 Chapter 3: Trends in the physical and chemical state of the ocean	121
Section 4 Chapter 4: Biodiversity (introduction)	139
Section 4 Sub-chapter 4a: Plankton	141
Section 4 Sub-chapter 4b: Cephalopods	162
Section 4 Sub-chapter 4c: Marine benthic invertebrates	179
Section 4 Sub-chapter 4d: Fishes	229
Section 4 Sub-chapter 4e: Marine mammals	246
Section 4 Sub-chapter 4f: Marine reptiles	271
Section 4 Sub-chapter 4g: Seabirds	293
Section 4 Sub-chapter 4h: Marine plants	310
Section 4 Sub-chapter 4i: Algae other than phytoplankton	325
Section 4 Chapter 5: Habitats (introduction)	344
Section 4 Sub-chapter 5a: Intertidal zone	345
Section 4 Sub-chapter 5b: Biogenic reefs and sandy, muddy and rocky shore substrates	364
Section 4 Sub-chapter 5c: Atoll and island lagoons	377
Section 4 Sub-chapter 5d: Tropical and subtropical coral reefs	410
Section 4 Sub-chapter 5e: Cold water corals and sponges	434
Section 4 Sub-chapter 5f: Estuaries and deltas	451
Section 4 Sub-chapter 5g: Seagrass meadows	467
Section 4 Sub-chapter 5h: Mangroves	480
Section 4 Sub-chapter 5i: Salt marshes	500
Section 4 Sub-chapter 5j: Continental slopes and submarine canyons	513
Section 4 Sub-chapter 5k: High-latitude ice	534
Section 4 Sub-chapter 5l: Seamounts and pinnacles	555
Section 4 Sub-chapter 5m: Abyssal plains	580
Section 4 Sub-chapter 5n: Pelagic domain	595
Section 4 Sub-chapter 5o: Ridges, plateaus and trenches	623
Section 4 Sub-chapter 5p: Hydrothermal vents and cold seeps	642
Section 4 Sub-chapter 5q: Sargasso Sea	663
Section 4 Sub-chapter 5r: Fjord systems	676
Section 4 Chapter 6: Pressures: Invasive species	700
Section 4 Chapter 6: Pressures: Erosion and sedimentation	725
Section 4 Chapter 6: Pressures: Marine infrastructure (outside of coastal areas)	739
Section 4 Chapter 6: Pressures: Cumulative effects	751
Section 4 Chapter 6: Pressures: Pollution	767
Section 5 Socio-ecological systems (introduction)	820
Section 5A A sustainable and inclusive ocean economy (introduction)	822
Section 5A Chapter 1: Food systems (introduction)	824
Section 5A Sub-chapter 1a: Medium and large-scale fishing	826
Section 5A Sub-chapter 1b: Small-scale fishing including subsistence fishing	871
Section 5A Sub-chapter 1c: Medium and large-scale aquaculture	902
Section 5A Sub-chapter 1d: Small-scale aquaculture	926
Section 5A Sub-chapter 1e: Seafood processing	952
Section 5A Sub-chapter 1f: (seafood) Trade	980
Section 5A Chapter 2: Recreational fishing	1008
Section 5A Chapter 3: Energy (introduction)	1034
Section 5A Sub-chapter 3a: Renewables	1036
Section 5A Sub-chapter 3b: Non-renewables	1083
Section 5A Chapter 4: Tourism	1109
Section 5A Chapter 5: Use of genetic resources and biotechnology	1138
Section 5A Chapter 6: Shipping	1168
Section 5A Chapter 7: Mineral resources	1196
Section 5A Chapter 8: Desalination and salt production (liquid salt)	1229
Section 5A Chapter 9: Coastal development	1258
Section 5A Chapter 10: Geoengineering	1287
Section 5B: One Health (introduction)	1313
Section 5B Chapter 1: The role of ecosystems in the carbon cycle	1315
Section 5B Chapter 2: The ocean and human health	1356
Section 5B Chapter 3: Human well-being	1431
Section 5B Chapter 4: Ocean hazards of natural origin	1462
Section 5B Chapter 5: Equity	1520
Section 5B Chapter 6: Gender	1570
Section 5B Chapter 7: Pandemics including COVID-19 Impacts	1606
Section 5B Chapter 8: Indigenous, Traditional owner and Local community Knowledge	1629
