

Post-workshop Survey

Scoping for the Next World Ocean Assessment(s)

Third cycle of the Regular Process

Belitung, Indonesia (13 – 15 December 2022)

Did you come to the workshop with some defined expectations?

Respondents: 15

What were your expectations?

Some of the responses

I expected that in this cycle of assessments, the concerned issues in the region will be addressed and existing regional organizations/processes will be identified.

Get to know how much the earlier assessments benefitted the ocean community

Participate and contribute to the discussion on World Ocean Assessment.

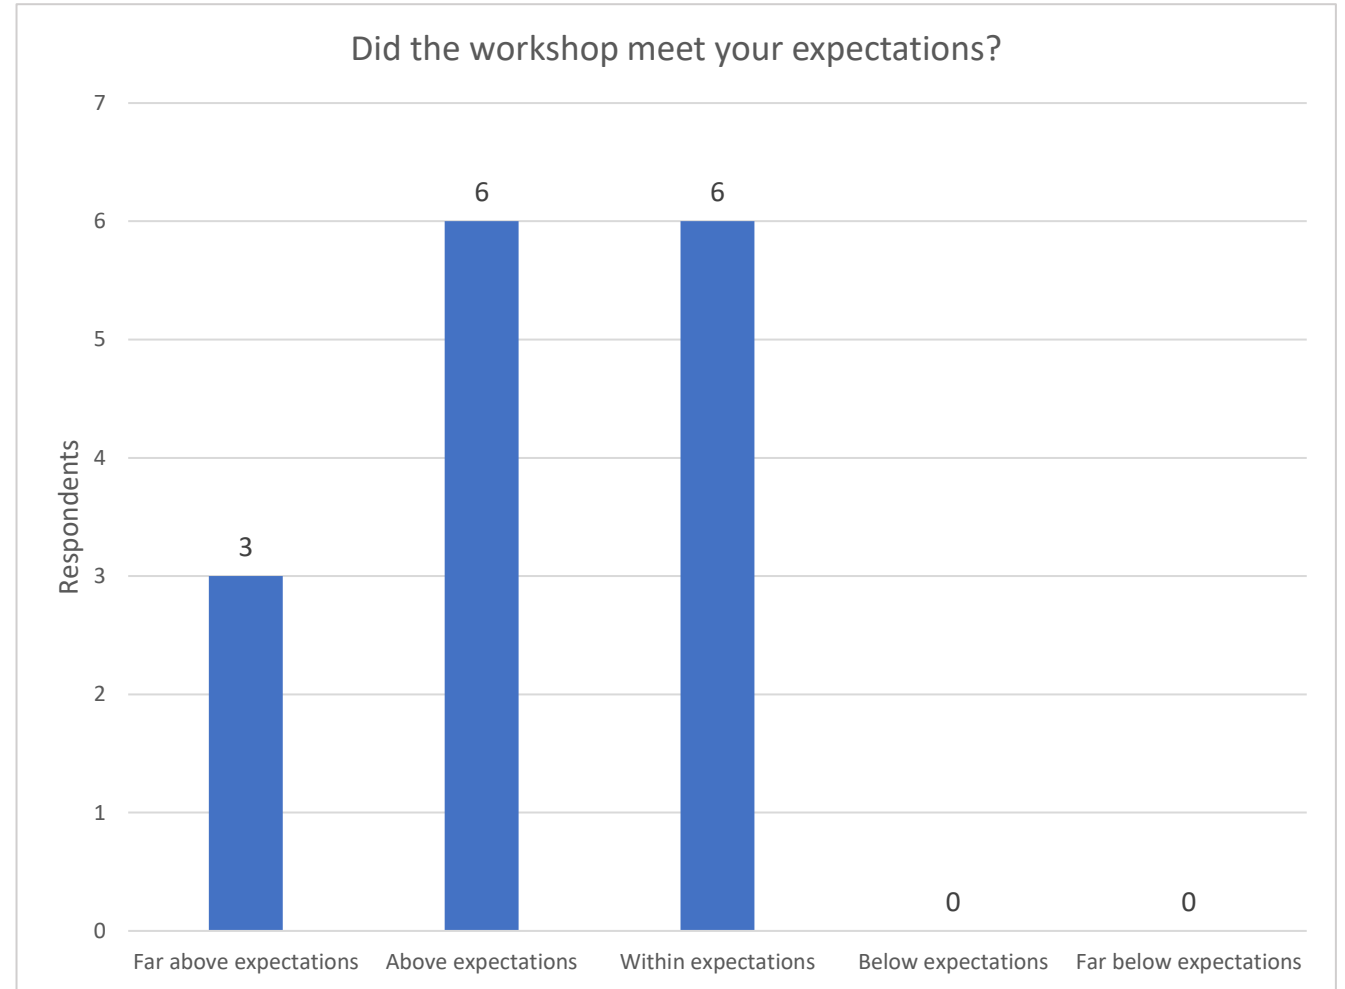

to contribute more for ocean health and fisheries sustainability

To exchange experience and share the knowledge.

3 respondents (23%) answered **Ocean Assessment** for this question. ...

Comparing your expectations at the beginning of the workshop and your opinion of it now. How well did the workshop meet your expectations?

What parts of the workshop worked particularly well?

Some of the responses

Presentation and discussion on World Ocean Assessment. Breakout Groups was also very engaging.

The breakout sessions and the discussions there on went well. The moderators chosen were competent.

Almost the whole part and especially the group presentation containing suggestion for next assessment

Stressed on Marine Biodiversity coservation, destdestructive pollution & climate changes, Community experience & local knowledge has given priority in addition other local issues ,

8 respondents (50%) answered **groups** for this question. ...

A word cloud visualization of responses. The word 'groups' is the largest and most central. Other prominent words include 'discussion', 'group presentation', 'Breakout session', 'Assessment', 'pollution & climate', 'Community experience', 'local knowledge', 'Presentation and discussion', 'sessions and the discussions', 'Group work', 'Breaking up of groups', 'experts discussion', 'working groups', 'Ocean Assessment', 'groups and their collaborations', and 'participants with more opportunities'.

What could be improved?

Some of the responses

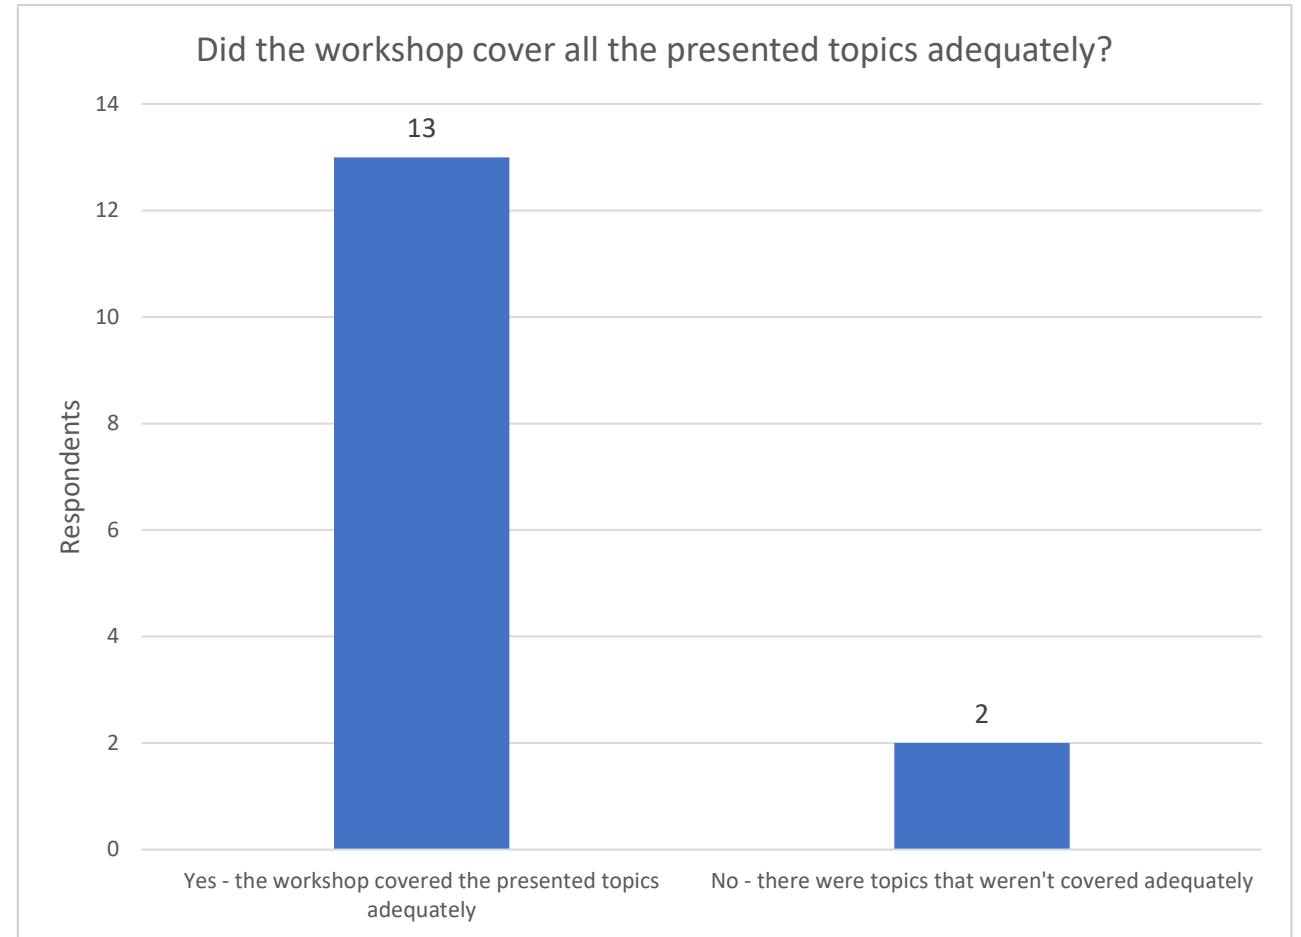

DSA for participants attending the workshop proved challenging as we had to budget it in accordance with our travel expenses as well (i.e. accommodation, meals, luggage issues etc). Otherwise, the workshop was very well organised.

If the questions were given to the participants in advance, it would provide more opportunity to enter the issues.

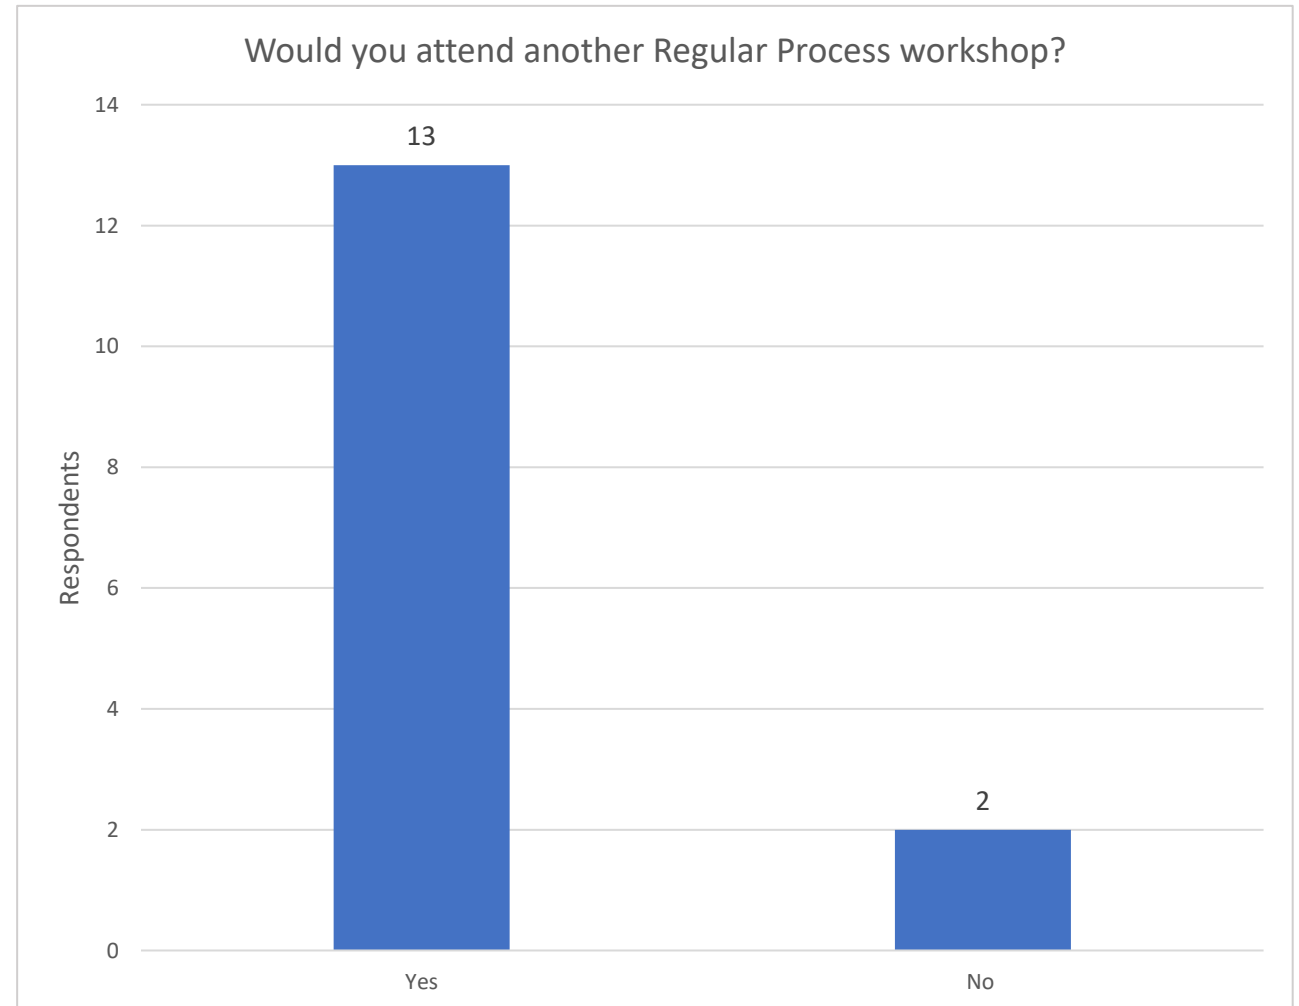

The time for discussion at breakout sessions was not adequate. More time could have produced better results.

Knowledge dissemination procedure should be improved.

In your opinion, did the workshop cover all the presented topics adequately?

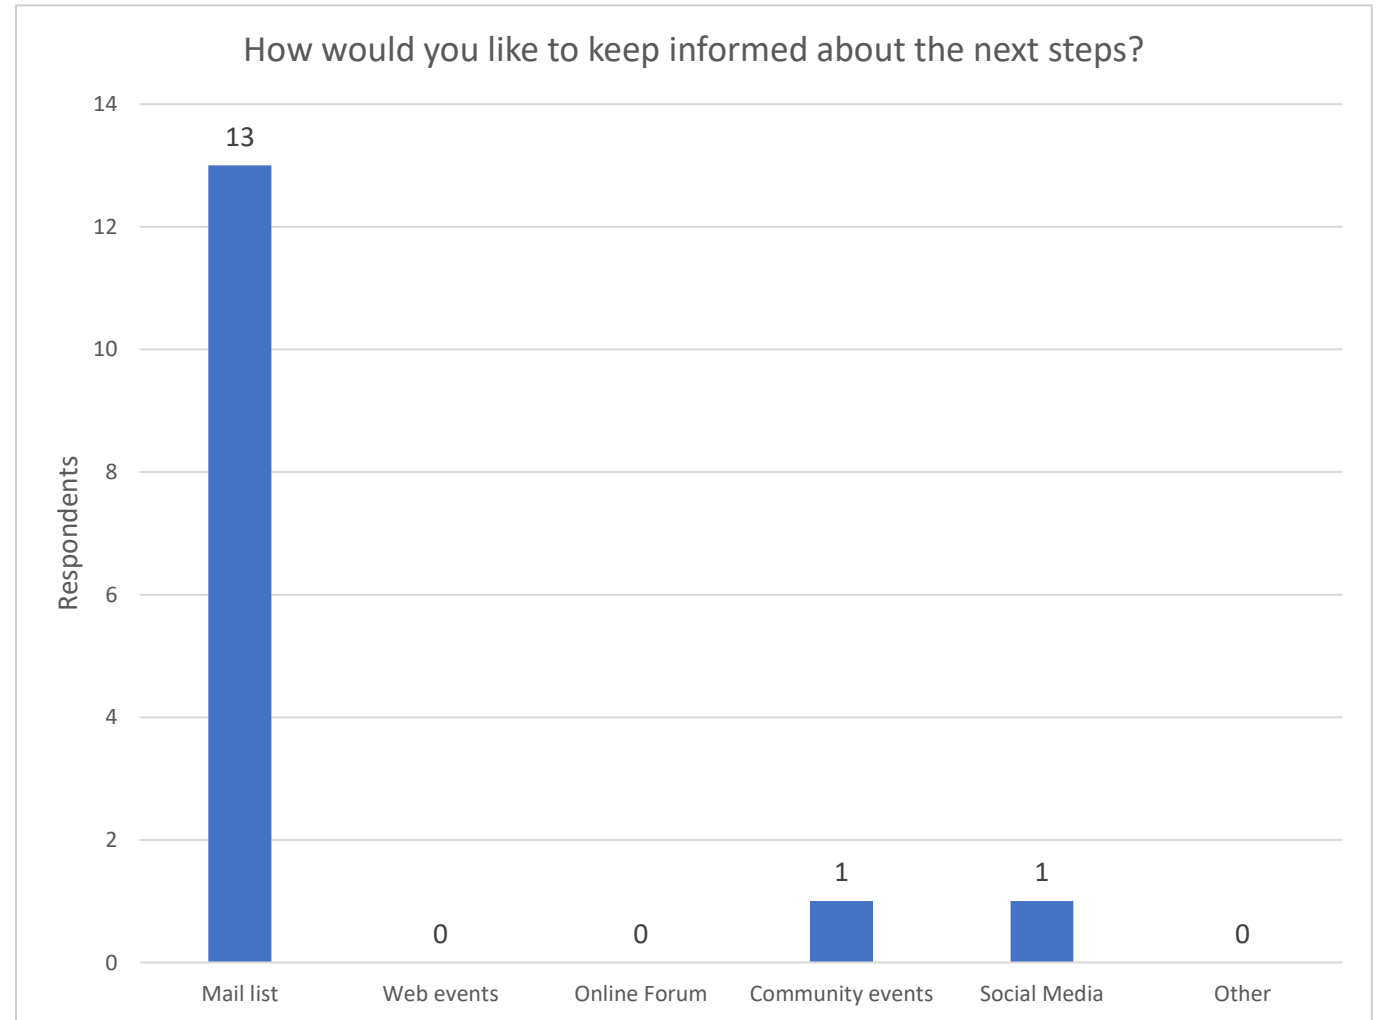

Would you attend another workshop on the Regular Process and its associated assessments?

How would you like to keep informed about the next steps in the third cycle of the Regular Process?

Any further comments

Some of the responses

Like to see the inputs in WoA-3, what was lacking in WoA-1 & 2 and its proper implementation specially in less development maritime country.

The workshop was well organised with competent experts to lead the discussions to a conclusion.

I need to join the UNDOALOS pool of experts to share my experience

The workshop is one of a kind. I see it as a form of decentralization. Keep on going.

5 respondents (36%) answered **workshop** for this question. ...

A word cloud visualization of responses. The word 'workshop' is the largest and most central. Other prominent words include 'proper implementation', 'workshop was well organised', 'competent experts', 'good', 'like zoom', 'good initiative', 'discussions to a conclusion', 'duration of the workshop', 'World Ocean', 'form of decentralization', 'Best wishes development maritime', 'share', 'UNDOALOS pool', 'experts', 'pool of experts', 'zoom meetings', 'days will be prefect', and 'step acitivity'.

Thank You
