36. Items relating to non-proliferation

A. Non-proliferation of weapons of mass destruction

During the period under review, the Security Council held three meetings to consider the item entitled “Non-proliferation of weapons of mass destruction”, one of which was held on the tenth anniversary of the adoption of resolution 1540 (2004).

On that occasion, the Council issued a presidential statement in which it recognized, inter alia, the urgent need for all States to take additional effective measures to prevent the proliferation of nuclear, chemical or biological weapons and to prevent non-State actors from acquiring weapons of mass destruction and their means of delivery.103 The Council recommended that the Committee established pursuant to resolution 1540 (2004) consider developing a strategy towards full implementation of resolution 1540 (2004) and incorporating such a strategy into its comprehensive review of the status of implementation of resolution 1540 (2004), which was to be submitted to the Council before December 2016.104

B. Non-proliferation

During the period under review, the Security Council held 11 meetings to consider the item entitled “Non-proliferation”, one more than in the two years covered in the previous Supplement to the Repertoire. The Council received eight briefings by the Chair of the Committee established pursuant to resolution 1737 (2006), 105 and adopted three resolutions. The Council twice extended the mandate of the Panel of Experts, first until 9 July 2015 and then until 9 July 2016.

The activities of the Council under this item focused mainly on the negotiations between the group of five permanent members plus one and the Islamic Republic of Iran, which culminated in the conclusion on 14 July 2015 of the Joint Comprehensive Plan of Action and the adoption of resolution 2231 (2015), in which the Council endorsed the agreement and urged its full implementation. According to that resolution, the sanctions against the Islamic Republic of Iran would be terminated upon compliance with specified conditions. 106 The termination of the sanctions would be subject, however, to the so-called “snap back” arrangements in the event of significant non-performance of commitments under the Joint Plan of Action within a period of approximately 10 years after its coming into effect.

In the latter part of 2015, the Council was briefed on and discussed the alleged test launch of an Emad ballistic missile by the Islamic Republic of Iran on 10 October 2015. 107

### C. Non-proliferation/Democratic People’s Republic of Korea

During the period under review, the Security Council held two meetings to consider the item entitled “Non-proliferation/Democratic People’s Republic of Korea”, half the number held in the two years covered in the previous Supplement to the Repertoire. The Council adopted two resolutions, half the total number of decisions adopted in the previous two-year period.

Council members were briefed in consultations in March, May and July 2014 on the launch of various ballistic missiles by the Democratic People’s Republic of Korea, in violation of relevant resolutions, as well as on the work of the Committee established pursuant to resolution 1718 (2006).108

The Council twice extended the mandate of the Panel of Experts, first until 5 April 2015 and then until 5 April 2016.109
