

High-level Dialogue on Energy | Clean, Affordable Energy for All by 2030, Net-Zero Emissions by 2050

PRESS CONTACTS | TECHNICAL WORKING GROUPS

Five Technical Working Groups convened between February and May 2021 to make substantive recommendations for a global roadmap on how to accelerate actions on each of the priority themes of the High-level Dialogue on Energy, in order to achieve clean, affordable energy for all by 2030 and net-zero emissions by 2050.
