

**United Nations Youth Climate Summit
21 September 2019
Rose Garden, United Nations Headquarters
9:30 a.m. - 6 p.m.**

Background

Climate change is the defining problem of our generation. Without concerted efforts and concrete solutions from young people, we will not be able to address the crisis and risk, leaving the most vulnerable behind. The SDG Action Zone will showcase solutions, commitments, and pledges made by young people to tackle the climate emergency. Participants will be able to interact with exhibits, network with climate activists and experts, present their solutions in an open mic format, and experience innovative ways to take climate action. The Youth Climate Compact, which emerged from thousands of youth pledging to take climate action at the 68th UN Civil Society Conference, will be featured. The SDG Action Zone is organized by the Department of Global Communications Youth Representatives Steering Committee, with the support of the Youth Climate Team in the Executive Office of the Secretary-General.

9:30 - 10 a.m.

Welcome and Morning Call to Action!
