

TERMS OF REFERENCE FOR THE GLOBAL PATIENT COORDINATION OFFICER IN THE POST-MEDEVAC SUPPORT PROCESS

This document sets out the Terms of Reference for the role of the Global Patient Coordination Officer in managing COVID-19 patients who are being treated at facilities with which the UN does not have a formal arrangement or where there is limited UN presence.

1. The **Global Patient Coordination Officer** (Global PCO) serves as a point of contact for the coordination and provision of non-medical support to COVID-19 patients who have been medically evacuated to locations that are not dedicated MEDEVAC hubs or which have no on-site Patient Coordination Officer.
2. Responsibility for making administrative and logistical arrangements for individual COVID-19 patients who have been medically evacuated (COVID-19 patients) and any non-medical escorts, including all aspects of repatriation, lies with the Patient Focal Point of the entity with which the patient is affiliated or another officially designated Point of Contact (hereafter 'Patient Focal Point').
3. The role of the Global PCO is to work with Patient Focal Points, the Treating Medical Facility, any in-country UN Medical Advisor, the UN MEDEVAC Cell, the UN Staff Counsellors Network, the Critical Incident Stress Management Unit, and other Patient Coordination Officers to compile and share information, to act as an intermediary between the Treating Medical Facility, Patient Focal Points and patients as needed, and to provide non-medical logistical assistance, including examples of best practise, to those who are responsible for supporting COVID-19 patients. The Global PCO reports to the head of the Medical Coordination Unit in the MEDEVAC Cell.

The key functions of this role include:

A. Preparatory activity: Communication, Information-gathering and Documentation

4. The designated Global PCO will initiate the following for those countries which have received COVID-19 patients and for which he/she has oversight responsibility:
 - i. Establish and maintain a list of focal points and their contact details for the following:
 - Local authorities focal points who may be able to provide guidance, logistical and any other required support, including but not limited to health, any local COVID-19 related restrictions, and ports or customs requirements;
 - Recognised faith-based organisations in the location who can be called upon to provide guidance and any requisite services;
 - Patient Focal Points for UN system entities which have a presence in the country, and;
 - Patient Focal Points for non-UN system entities which are able to access the UN MEDEVAC System and which have a presence in the country.
 - ii. Identify and communicate to the relevant focal points any relevant access protocols (including any requirements and constraints) that are in place at the Treating Medical Facility in which patients are undergoing treatment.

- iii. Identify any quarantine restrictions which may impact non-medical patient escorts and ensure these are promptly communicated to the UN MEDEVAC Cell and the relevant Patient Focal Point.
- iv. In conjunction with any in-country UN Medical Advisor and other colleagues as appropriate, and informed by the Framework for Post-MEDEVAC Support, develop an Standard Operating Procedures (SOP) for each country, to be shared with all Patient Focal Points to inform effective oversight and coordination of the following:
 - Non-medical support to hospitalised COVID-19 patients and to any escorts
 - Non-medical support to medically discharged but convalescing COVID-19 patients
 - The repatriation of COVID-19 patients to another country
 - The notification of death and repatriation of the remains of a COVID-19 patient¹

B. Active Engagement, Coordination, and the provision of Support:

- i. Liaise daily with the Treating Medical Facility to maintain a current overview of the status of COVID-19 patients;
- ii. Proactively ensure that each COVID-19 patient and any accompanying escort is assigned to and is being actively supported by a designated Patient Focal Point;
- iii. Ensure that any non-medical needs of the COVID-19 patient are communicated to the Patient Focal Point and are as far as is possible, being met;
- iv. Convey any administrative or financial queries from the Treating Medical Facility to the Patient Focal Point, or in the case of financial queries to Cigna as appropriate;
- v. Monitor patient progress and ensure the Patient Focal Point makes the requisite preparations to meet the basic needs of the patient following discharge from the Treating Medical Facility;
- vi. If needed, support the Patient Focal Point to plan and facilitate the repatriation of recovered COVID-19 patients and if required, the repatriation of remains, and;
- vii. Compile regular updates on the status of all COVID-19 patients globally up to the point of their repatriation and share this with the Medical Coordination Unit in the UN MEDEVAC Cell;

C. Identify Best Practises, Challenges and Promote Lessons Learned:

- i. Actively monitor the non-medical support provided to COVID-19 patients and any escorts, and identify best practises, challenges and promote lessons learned. Compile lessons learned reports from all MEDEVAC locations and in conjunction with the UN MEDEVAC Cell, share these with all stakeholders as appropriate.

Regulatory Framework

5. The above responsibilities are to be completed in accordance with relevant UN regulations, rules, policies and procedures, including in particular those pertaining to confidentiality.

Access to Resources

6. In the exercise of their functions the Global PCO will rely on the respective personnel and resources of UNCT/UN system organizations, under the agreed-upon arrangements.
