

## What does UN DESA do?

### Intergovernmental support

By facilitating major global conferences and summits in the economic, social and environmental fields, as mandated by UN Member States, UN DESA assists countries as they find common ground, set norms, and take decisive steps to move the world forward.

### Analysis

As the think tank of the United Nations, UN DESA, generates, analyses and compiles a wide range of economic, social and environmental data and statistics to inform and advise Member States and other stakeholders as they take stock of trends and policy options to tackle common problems.

### Capacity-building

UN DESA aids in translating policy frameworks developed in UN conferences and summits into programmes at the country level and, through technical assistance, supports Member States in building national capacities.
