

**United Nations**

HIGH-LEVEL DIALOGUE ON  
**ENERGY**  
UNITED NATIONS, NEW YORK, SEPTEMBER 2021

## Ministerial Thematic Forums

21 – 25 June 2021

Event name: **Investment Priorities for Cleaner Cooking Energy Compacts**

Event date and time: June 21, 12.45 - 14.00 EST

Organizers: Cleaner Cooking Coalition

Number of participants: 20

Main speakers and brief summary [max 300 words]:

Stella Gama, Forestry Advisor from Malawi Ministry of Forestry and Natural Resources presented on the forestry policy options for improving investment in cleaner cooking.

Ron Ngwira, managing director of Pyxus International presented on the work on generating sustainable biomass fuel chains that his company is working on.

Mbumba Mita, marketing manager of Supamoto Zambia, presented on competing with charcoal in the urban market of Lusaka with biomass pellets and advanced biomass cook stoves.

Khadija Mussa from GIZ - Energising Development gave an overview of EnDev in Malawi and the work of the National Cookstove Steering Committee.

Christa Roth, of food and fuel consultants, presented how a \$2 stove produced locally in Malawi can be a flexi-fuel stove

Key outcomes [max 100 words]:

Since the presentation there have been a number of concept-proving demos of how the Chitetezo Mbaula locally made clay cookstove can be fuelled with biogas as well as biomass - demonstrating the potential for it to become a flexi-fuel stove.
