In celebration of the Arabic Language Day, the Arabic Translation Service in New York takes pleasure in organising this curated exhibition of warm colours and captivating forms. It features an assorted collection of photographs from various Arabic-speaking countries, graciously sourced and contributed by our colleagues.

As you step into this cultural tapestry, be prepared to embark on a mesmerizing journey that connects you with the heart and soul of Egypt, Iraq, Jordan, Kuwait, Lebanon, Morocco, Sudan, Syria, and Tunisia.

The photographs shared by our colleagues are more than still images. They are a symphony of colours and movements, an enchanting sensory experience that transports you to the heart of Arabic traditions. The images resonate with the soulful rhythms of Arabic music, the graceful elegance of Arabic dance, and the tantalizing aroma of authentic Middle Eastern and African cuisine.

Let your senses immerse in the vibrant pulses of the ancient Al-Moutanabbi Street in Baghdad, the captivating beauty of the historic Souk Al-Hamidiya, the mesmerizing serenity of the timeless City of Petra, and the magnificent fusion of modernity and tradition embodied by Hassan II Mosque in Casablanca. Each photograph captures a unique aspect of the enduring hallmarks of the vibrant Arabic culture.

While the exhibition celebrates the Arabic language, it also fosters a deeper appreciation for the rich diversity of the Arabic-speaking world. It is an invitation to explore the shared human experiences that bind us all, uniting us in our collective appreciation of beauty, tradition and the essential narratives of the Arabic heritage.
