Event ID: E06

Title: Industrial Policy for a Just Transition: Green Growth, Jobs, and Global Competitiveness

One line description for SDG pavilion website (max 200 characters): This event explores how countries can use tailored analysis to develop smart industrial policy that advances just transition and economic competitiveness.

Date and Time: Tuesday, 11 November, 9:00-9:45am

Location: UN SDG pavilion (blue zone)

Lead Organization: Net Zero Industrial Policy Lab at Johns Hopkins University

POC: Catherine Goldberg (cgoldb10@jh.edu, +1 443 904 1880 for WhatsApp)

Partner Organizations: Global Green Growth Institute (GGGI) and United Nations Industrial Development Organization (UNIDO)

Detailed event description: To advance just transitions and Paris-aligned climate action, countries' industrial policies should build on their strengths and capacities. Johns Hopkins University will share key findings from its trade-based global model of industrial competitiveness in 10 green technologies and present ways to use the analytics to develop robust policy. The event will also feature insights and important findings from the Global Green Growth Institute's Policy Brief on G20 countries' good practices of incorporating Just Transition into Long Term Low Emission Development Strategies (LT-LEDS), and a presentation from UNIDO on multilateral approaches to realizing green industrial development opportunities.

****Note that all presenters will have PowerPoint slides to present.****

Speakers:

- Moderator: Ms. Catherine Goldberg, Senior Fellow, Net Zero Industrial Policy Lab at Johns Hopkins University
- Presenter: Ms. Ishana Ratan, Research Fellow, Net Zero Industrial Policy Lab at Johns Hopkins University
