By 2030, 700 million people could be displaced by intense water scarcity.

673 million people (9% of the global population) still practise open defecation (2017).

The majority of them are in Southern Asia.

2 billion people live in countries experiencing high water stress.

785 million people remain without even basic drinking water services (2017).

2 out of 5 people worldwide do not have a basic handwashing facility with soap and water at home (2017).

1 out of 4 health-care facilities worldwide lack basic drinking water services (2016).

673 million people (9% of the global population) still practise open defecation (2017)

Ensure availability and sustainable management of water and sanitation for all.
