

# WATER WIZARD

“Keeps dangerous plastics from getting into the ocean and makes sure you don’t let water go to waste”

## WHAT THEY DO:

Refills water bottles and uses reusable containers

Takes short, 5-minute showers

Turns off the water when brushing teeth and washing hands

## Why do we need the Water Wizard?

Water is a precious resource: Less than 3 percent of the world’s water is fresh (drinkable), and most of it is frozen in the Antarctica, Arctic and glaciers. Humans are misusing and polluting water faster than nature can recycle and purify water in rivers and lakes. Using water smartly can help ensure that we continue to have clean water to drink, wash and stay healthy. You can save water by taking shorter showers, turning off the tap when brushing your teeth, installing a low-flow toilet, and many other ways. You can also help protect water by avoiding plastics, which often end up in the ocean and kill seabirds and marine life. Each year, a staggering eight million tonnes of plastic end up in the ocean – equivalent to a full garbage truck dumped into the sea every minute.

# WATER REWARDS

## TRACK YOUR WATER HABITS

Disposable items such as plastic bottles, straws and plastic bags often end up in rivers that carry them into the ocean, polluting our water and endangering fish. **How many times can you avoid one-time use plastic this week by bringing your own bag or reusable water bottle for instance? Use the punch card below to track your progress.**

**WATER REWARDS**  
How many times can you avoid one-time use items?

THIS CARD BELONGS TO:

---

1 2 3 4 5 6 7 8

**WATER REWARDS**
