

The Gaza Strip faces a chronic humanitarian crisis, impacting the livelihoods and access to essential services by its two million residents. This crisis has been driven by over 12 years of an Israeli blockade and an unsolved internal Palestinian divide, exacerbated since March 2018 by the massive increase in Palestinian casualties in the context of demonstrations taking place near Israel's perimeter fence, as well as limited escalations in hostilities between Israel and Palestinian armed groups. The following indicators were identified by the Humanitarian Country Team (HCT) to monitor specific aspects of the crisis, identify areas of further deterioration and trigger humanitarian action.

## ELECTRICITY

### HOURS OF ELECTRICITY SUPPLY PER DAY (ON AVERAGE)

2017 AVERAGE 5.7 HRS/DAY

2018 AVERAGE 6.6 HRS/DAY

2019 AVERAGE 12 HRS/DAY

Source: GEDCO

## WATER, SANITATION AND HYGIENE

### ACCESS TO PIPED WATER (LITERS PER CAPITA PER DAY)

100 LCD WHO minimum recommended amount of water

2019 AVERAGE 78

\*Due to its poor quality, piped water is used for domestic purposes rather than drinking and cooking. For the latter, people rely mostly on buying tankered desalinated water from unregulated water vendors.
