Prime Minister

MESSAGE

On the occasion of the International Day of Solidarity with the Palestinian people, I wish to reiterate India's abiding support to the Palestinian cause. Our relationship with the Palestinian people is based on deep-rooted historical and people-to-people ties between our two nations.

India has been a committed development partner of Palestine and are actively engaged in extending technical and economic assistance to improve the lives of the Palestinian people. I am glad that even during the pandemic our projects have progressed, including the Palestine-India Techno-park, two Schools, the National Printing Press and a Women' Empowerment project. We will continue to support nation building efforts of Palestine.

India's position on the Palestine issue has been consistent. India hopes for an early resumption of dialogue between Palestine and Israel to move towards finding a comprehensive and negotiated solution.

I extend my best wishes to the friendly people of Palestine in their endeavour of statehood, peace and prosperity.

(Narendra Modi)
