

Situation Overview

Between the start of the crisis on **7 October** and **20 October**, approximately **2,100 commercial trucks** should have reached Gaza through the Rafah border crossing alone, but none did. Since the re-opening of Rafah border crossing for humanitarian cargo on **21 October**, the daily average number of confirmed trucks that crossed through Rafah is less than **30 per cent** of the normal daily average for Rafah alone and less than **10 per cent** of the normal daily average for all crossing points.

Key Figures

1,096 (+163*) Trucks
since 21 October 2023
